WIND FARM PARTICIPATION AND SUPPORT AGREEMENT

This Wind Farm Participation and Support Agreement (this "**Agreement**"), is dated and effective as of August 22, 2018 ("**Effective Date**"), by and between **Bruce R. Harris and Audrey M. Harris, husband and wife** (collectively, "**Owner**") and **Lincoln Land Wind, LLC**, a Delaware limited liability company ("**Grantee**").

RECITALS:

A. Owner is the owner of that certain tract of real property located in Morgan County, Illinois, more particularly described on Exhibit A attached hereto and made a part hereof (the "**Property**");

B. Grantee has acquired, or will acquire, certain easements and other related rights covering real property located adjacent to and/or in the vicinity of the Property (collectively, the "**Wind Farm Property**") for purposes of the construction, installation, maintenance, use and operation of wind energy conversion turbines ("**Wind Turbines**"), electrical distribution and transmission facilities and related roads and facilities (collectively, the "**Wind Facilities**");

C. Owner desires to participate in the wind farm project being developed by Grantee on the Wind Farm Property in Morgan County, Illinois (the "**Wind Farm**") in accordance with the terms and conditions contained herein; and

D. The Wind Farm may be constructed and put into operation in one or more phases (each a "**Phase**") that are distinguishable from the remainder of the Wind Farm, as determined by Grantee in its reasonable discretion.

AGREEMENT:

NOW, THEREFORE, in consideration of the premises and other good and valuable consideration, the receipt and adequacy of which are hereby acknowledged, the parties hereto agree as follows:

1. **Setback Waiver.**

1.1 To the extent that any applicable law, ordinance, regulation or permit establishes, or has established, minimum setbacks from the exterior boundaries of the Property (or any structures thereon) for Wind Facilities constructed on Wind Farm Property, Owner hereby waives any and all such setback requirements (the "**Setback Waiver**"); provided however, Grantee agrees not to construct a Wind Turbine within One Thousand Two Hundred Feet (1,200') of any occupied residence located on the Property (as measured from the edge of the base of the Wind Turbine to the exterior of the closest foundation of any occupied residence on the Property as of the date hereof). For the avoidance of doubt, this Agreement does not grant to Grantee the right to construct Wind Facilities on the Property.

1.2 The Setback Waiver is for the benefit of Grantee, the owner(s) of adjacent Wind Farm Property, and their respective successors and assigns, and shall run with the land. If requested by Grantee, Owner shall execute and deliver to Grantee one or more separate setback waivers evidencing the intent of this Section 1, in a form provided by Grantee, which Grantee may then record at its expense.

2. **Term of Agreement.** This Agreement shall be for an initial term ("**Option Term**") commencing on the Effective Date and continuing for a period of seven (7) years. If, at any time during the Option Term the Commercial Operations Date (as defined below) for a Phase that includes the Property occurs, then the Option Term shall end and the term of this Agreement shall automatically be extended for a period of thirty (30) years (such period, the "**Operation Term**"). Unless earlier terminated, Grantee shall have the sole right and option to extend the Operation Term for two additional ten (10) year terms by providing written notice thereof to Owner within thirty (30) days of the end of the Operation Term. The Option Term plus the Operation Term, as the same may be extended, are collectively referred to in this Agreement as the "**Term**." Notwithstanding the foregoing, in no event shall the Term of this Agreement be longer than the longest period permitted by law. The "**Commercial Operations Date**" means the date that Wind Turbines representing at least ninety-five percent (95%) of the installed capacity of a particular Phase are authorized and able to continuously and reliably generate and deliver commercial quantities of energy.

3. **Termination.** Grantee shall have the right throughout the Term to terminate this Agreement as to all or any part of the Property upon thirty (30) days prior written notice to Owner. If the Commercial Operations Date does not occur prior to the seventh (7^{th}) anniversary of the Effective Date, this Agreement shall automatically terminate. Either party shall have the right to terminate this Agreement in whole or in part, at any time, upon written consent of the other party.

4. **Consideration**. As consideration for the rights granted herein, Grantee shall make payments to Owner during the Term as set forth in the Fee Schedule attached hereto ("**Fee Schedule**"). The Fee Schedule shall be omitted from the recorded Agreement as provided in Section 10 below.

5. **Authority**. Owner represents and warrants that it is the sole owner of the Property and has the unrestricted right and authority to execute this Agreement and to grant to Grantee the rights granted hereunder. Each person signing this Agreement on behalf of Owner is authorized to do so, and all persons having any ownership or possessory interest in the Property have signed this Agreement as Owner. There are no liens, encumbrances, leases, mortgages, deeds of trust, mineral or oil and gas rights, options, rights of refusal, preferential rights to purchase or lease, or other interests in (or exceptions to) Owner's fee title ownership of the Property which are not recorded in the public records of the county in which the Property

is located.

6. **Assignment**. Grantee shall have the right at any time, without need for Owner's consent, to assign or convey all or any portion of this Agreement to an assignee or assignees, on an exclusive or nonexclusive basis, or to mortgage or collaterally assign all or any part of its interest in the Agreement and its rights under the Agreement to any entity (a "**Lender**") without the consent of Owner. Any Lender will have no obligations under this Agreement until such time as it exercises its rights to acquire Grantee's interest subject to the lien of Lender's mortgage by foreclosure or otherwise or assumes the obligations of Grantee under this Agreement. So long as any mortgage with a Lender remains in effect, this Agreement shall not be modified, and Owner shall not accept a surrender of the Property or a termination or release of this Agreement, without the prior consent of all Lenders. Owner, upon providing Grantee any notice of default under this Agreement, shall at the same time provide a copy of such notice to each Lender. Owner shall accept any performance by or at the instigation of any such Lender as if the same had been done by Grantee (but no Lender shall have any obligation to remedy or cause the remedy of any default).

7. **Reasonable Assistance.** Owner consents to allowing Grantee to act on Owner's behalf to evidence Owner's consent as set forth in this Agreement. Owner agrees to and shall execute such estoppel certificates (certifying as to such matters as Grantee may reasonably request) and/or consents to assignment and/or non-disturbance agreements as Grantee or any Lender may reasonably request from time to time. Owner agrees not to object to the Wind Farm and to use reasonable efforts to assist Grantee's reasonable requests. In the event Owner has concerns or issues with regard to the construction, installation, maintenance, use or operation of Wind Facilities, Owner agrees to have informal discussions with Grantee, including in-person meetings, for a period of thirty (30) days before pursuing other means to resolve the issues or concerns.

8. **Events of Default**. Each of the following shall constitute an event of default, which shall permit the non-defaulting party, at its discretion, to terminate this Agreement and/or pursue such other remedies as are available to it at law or in equity:

(a) any failure by Grantee to pay any amount owed pursuant to Section 4 above if the failure to pay continues for thirty (30) days after Grantee's receipt of written notice from Owner; and

(b) any other material breach of this Agreement by either party which continues for thirty (30) days after written notice of default from the non-defaulting party or, if the cure will take longer than thirty (30) days, the length of time necessary to effect such cure so long as the defaulting party commences to cure within the thirty (30) day period and continuously and diligently pursues the cure to completion.

9. **Notice**. All notices, requests, demands, waivers, approvals, consents and other communications required or permitted by this Agreement ("**Notices**") shall be given in writing by personal delivery (confirmed by courier delivery service), or facsimile, receipt confirmed, or first class U.S. mail, postage prepaid, return receipt requested, certified, addressed as follows:

Grantee shall not be required to make any rent payment to Owner under this Agreement until such time as Owner has returned to Grantee a completed and executed Internal Revenue Service Form W-9 and a payment instruction form signed by each person or entity holding record title to the Property. Any party may change its address for purposes of this paragraph by giving Notice of such change to the other parties in the manner provided in this paragraph. Any Notice provided for herein shall become effective only upon actual receipt by the party to whom it is given, unless such Notice is only mailed by certified mail, return receipt requested, in which case it shall be deemed to be received five (5) business days after the date it is mailed.

10. **Recording**. Owner and Grantee agree that this Agreement (without the Fee Schedule) shall be recorded in the real property records of the county in which the Property is located.

11. **Confidentiality**. Owner shall maintain in confidence all information pertaining to the financial terms of or payments under this Agreement, whether disclosed by Grantee or discovered by Owner, unless such information is in the public domain by reason of prior publication through no act or omission of Owner or its employees or agents. Owner shall not publish or otherwise disclose such information to others except to accountants, lawyers, or other professionals who receive such information under an obligation of confidentiality; buyers of the Property; lenders that have a security interest in the Property; or family members who agree to keep such information confidential. The provisions of this Section 11 shall survive the termination or expiration of this Agreement.

12. **Wind Energy Lease Agreement**. In the event that Owner and Grantee enter into a Wind Energy Lease Agreement or other similar instrument whereby Owner grants Grantee the exclusive right to install Wind Turbines and/or Wind Facilities on the Property, then this Agreement shall be superseded by such instrument and this Agreement and all payment obligations hereunder shall terminate as of the effective date of such instrument. The foregoing shall not obligate either party to enter into any Wind Energy Lease Agreement or other similar instrument unless it determines in its own best interest to do so. For the avoidance of doubt, this Agreement does not grant Grantee the right to install Wind Turbines and/or Wind Facilities on the Property.

13. **Legal Fees**. In the event of any controversy, claim or dispute arising out of or relating to this Agreement or the enforcement or breach hereof, the prevailing party shall be entitled to recover from the losing party the prevailing party's reasonable costs, expenses and attorneys' fees (including but not limited to those incurred at trial, on appeal and on petition for review).

14. **Binding Effect; Governing Law.** All the terms, conditions, covenants and other provisions contained in this Agreement, including benefits and burdens, shall be binding upon and shall run

with the land and shall inure to the benefit of and be enforceable by Owner and Grantee, and their respective heirs, successors and assigns. The provisions hereof shall be governed by and construed in accordance with the laws of the State of Illinois, excluding the choice of law provisions thereof.

[*signature pages follow*]

IN WITNESS WHEREOF, AND INTENDING TO BE LEGALLY BOUND HEREBY, Owner and Grantee have caused this Agreement to be duly executed and delivered by their authorized representatives to be effective as of the date first written above.

WIND FARM PARTICIPATION AND SUPPORT AGREEMENT

This Wind Farm Participation and Support Agreement (this "**Agreement**"), is dated and effective as of March 5, 2019 ("**Effective Date**"), by and between **Gavin Duewer and Hannah Duewer, husband and wife** (collectively, "**Owner**") and **Lincoln Land Wind, LLC**, a Delaware limited liability company ("**Grantee**").

RECITALS:

A. Owner is the owner of that certain tract of real property located in Morgan County, Illinois, more particularly described on Exhibit A attached hereto and made a part hereof (the "**Property**");

B. Grantee has acquired, or will acquire, certain easements and other related rights covering real property located adjacent to and/or in the vicinity of the Property (collectively, the "**Wind Farm Property**") for purposes of the construction, installation, maintenance, use and operation of wind energy conversion turbines ("**Wind Turbines**"), electrical distribution and transmission facilities and related roads and facilities (collectively, the "**Wind Facilities**");

C. Owner desires to participate in the wind farm project being developed by Grantee on the Wind Farm Property in Morgan County, Illinois (the "**Wind Farm**") in accordance with the terms and conditions contained herein; and

D. The Wind Farm may be constructed and put into operation in one or more phases (each a "**Phase**") that are distinguishable from the remainder of the Wind Farm, as determined by Grantee in its reasonable discretion.

AGREEMENT:

NOW, THEREFORE, in consideration of the premises and other good and valuable consideration, the receipt and adequacy of which are hereby acknowledged, the parties hereto agree as follows:

1. **Setbacks.**

(a) Notwithstanding any applicable law, ordinance, regulation or permit establishes, or has established, minimum setbacks from the exterior boundaries of the Property for Wind Facilities constructed on Wind Farm Property, to the extent permitted by applicable law, Owner hereby waives any and all such setback requirements with respect to each and every property line of the Property (the "**Setback Waiver**"). For the avoidance of doubt, this Agreement does not grant to Grantee the right to construct Wind Facilities on the Property.

(b) Grantee will abide by all laws, ordinances, regulations, and permit provisions establishing setbacks from occupied residences on the Property as of the date hereof, and in no event shall Grantee construct a Wind Turbine within One Thousand Two Hundred Feet (1,200') of any occupied residence located on the Property (as measured from the edge of the base of the Wind Turbine to the exterior of the closest foundation of any occupied residence on the Property as of the date hereof).

(c) The parties recognize that Grantee is developing Wind Facilities on the Wind Farm Property, and this Setback Waiver is for the benefit of Grantee, the owner(s) of adjacent Wind Farm Property, and their respective successors and assigns, and shall run with the land.

2. **Participation in Wind Farm and Dispute Resolution.** Owner agrees to be deemed a participating landowner with respect to the Wind Farm. In the event Owner has concerns or issues with regard to the construction, installation, maintenance, use or operation of Wind Facilities, Owner agrees to have informal discussions with Grantee, including in-person meetings, for a period of thirty (30) days before pursuing other means to resolve the issues or concerns. Owner agrees to and shall execute such estoppel certificates (certifying as to such matters as Grantee may reasonably request) and/or non-disturbance agreements as Grantee or any Lender may reasonably request from time to time.

3. **Term of Agreement.** Subject to the terms and conditions of this Agreement, the term of this Agreement shall commence on the Effective Date and continue for forty-two (42) years (the "**Term**"), unless earlier terminated by Grantee by written notice to Owner or as otherwise provided herein. If the Construction Commencement Date (defined below) has not occurred prior to the seventh (7^{th}) anniversary of the Effective Date, this Agreement shall automatically terminate. The "**Construction Commencement Date**" shall be the date when excavation work for the installation of a foundation for a Wind Turbine constructed by Grantee on any portion of the Wind Farm Property begins or when excavation work for roads by Grantee on the Wind Farm Property related to its commencement of construction of any Wind Facilities. The Grantee Shall have the option to record a notice of the Construction Commencement Date, with reference to this Agreement, provided that Grantee shall deliver a copy of such notice to Owner within thirty (30) days after recordation of such notice.

4. **Limit on Termination.** Notwithstanding Section 3, except as provided in Section 12 below, or as otherwise provided herein, Grantee shall not terminate or surrender its right, title and interest in this Agreement for any portion of the Property located within one-half (1/2) mile of a Wind Turbine (measured from the center of the Wind Turbine) operated by Grantee as part of the Wind Farm, without the written consent of the Owner, unless there is a title curative issue, permitting issue, or environmental issue affecting the Property, in which case Grantee may terminate this Agreement with respect to that portion of the Property so affected.

5. **Consideration**. As consideration for the rights granted herein, Grantee shall make

payments to Owner during the Term as set forth in the Fee Schedule attached hereto ("**Fee Schedule**"). The Fee Schedule shall be omitted from the recorded Agreement as provided in Section 10 below.

6. **Authority**. Owner represents and warrants that it is the sole owner of the Property and has the unrestricted right and authority to execute this Agreement and to grant to Grantee the rights granted hereunder.

7. **Assignment**. Grantee shall have the right at any time, without need for Owner's consent, to assign or convey all or any portion of this Agreement to an assignee or assignees, on an exclusive or nonexclusive basis, or to mortgage or collaterally assign all or any part of its interest in the Agreement and its rights under the Agreement to any entity (a "**Lender**") without the consent of Owner. Any Lender will have no obligations under this Agreement until such time as it exercises its rights to acquire Grantee's interest subject to the lien of Lender's mortgage by foreclosure or otherwise or assumes the obligations of Grantee under this Agreement. So long as any mortgage with a Lender remains in effect, this Agreement shall not be modified, and Owner shall not accept a surrender of the Property or a termination or release of this Agreement, without the prior consent of all Lenders. Owner, upon providing Grantee any notice of default under this Agreement, shall at the same time provide a copy of such notice to each Lender. Owner shall accept any performance by or at the instigation of any such Lender as if the same had been done by Grantee (but no Lender shall have any obligation to remedy or cause the remedy of any default).

8. **Events of Default**. Each of the following shall constitute an event of default, which shall permit the non-defaulting party, at its discretion, to terminate this Agreement and/or pursue such other remedies as are available to it at law or in equity:

(a) any failure by Grantee to pay any amount owed pursuant to Section 4 above if the failure to pay continues for thirty (30) days after Grantee's receipt of written notice from Owner; and

(b) any other material breach of this Agreement by either party which continues for thirty (30) days after written notice of default from the non-defaulting party or, if the cure will take longer than thirty (30) days, the length of time necessary to effect such cure so long as the defaulting party commences to cure within the thirty (30) day period and continuously and diligently pursues the cure to completion.

9. **Notice**. All notices, requests, demands, waivers, approvals, consents and other communications required or permitted by this Agreement ("**Notices**") shall be given in writing by personal delivery (confirmed by courier delivery service), or facsimile, receipt confirmed, or first class U.S. mail, postage prepaid, return receipt requested, certified, addressed as follows:

Grantee shall not be required to make any rent payment to Owner under this Agreement until such time as Owner has returned to Grantee a completed and executed Internal Revenue Service Form W-9 and a payment instruction form signed by each person or entity holding record title to the Property. Any party may change its address for purposes of this paragraph by giving Notice of such change to the other parties in the manner provided in this paragraph. Any Notice provided for herein shall become effective only upon actual receipt by the party to whom it is given, unless such Notice is only mailed by certified mail, return receipt requested, in which case it shall be deemed to be received five (5) business days after the date it is mailed.

10. **Recording**. Owner and Grantee agree that this Agreement (without the Fee Schedule) shall be recorded in the real property records of the county in which the Property is located.

11. **Confidentiality**. Owner shall maintain in confidence all information pertaining to the financial terms of or payments under this Agreement, whether disclosed by Grantee or discovered by Owner, unless such information is in the public domain by reason of prior publication through no act or omission of Owner or its employees or agents. Owner shall not publish or otherwise disclose such information to others except to accountants, lawyers, or other professionals who receive such information under an obligation of confidentiality; buyers of the Property; lenders that have a security interest in the Property; or family members who agree to keep such information confidential. The provisions of this Section 11 shall survive the termination or expiration of this Agreement.

12. **Wind Energy Lease Agreement**. In the event that Owner and Grantee enter into a Wind Energy Lease Agreement or other similar instrument whereby Owner grants Grantee the exclusive right to install Wind Turbines and/or Wind Facilities on the Property, then this Agreement shall be superseded by such instrument and this Agreement and all payment obligations hereunder shall terminate as of the effective date of such instrument. The foregoing shall not obligate either party to enter into any Wind Energy Lease Agreement or other similar instrument unless it determines in its own best interest to do so. For the avoidance of doubt, this Agreement does not grant Grantee the right to install Wind Turbines and/or Wind Facilities on the Property.

13. **Binding Effect; Governing Law.** All the terms, conditions, covenants and other provisions contained in this Agreement, including benefits and burdens, shall be binding upon and shall run with the land and shall inure to the benefit of and be enforceable by Owner and Grantee, and their respective heirs, successors and assigns. The provisions hereof shall be governed by and construed in accordance with the laws of the State of Illinois, excluding the choice of law provisions thereof.

WIND FARM PARTICIPATION AND SUPPORT AGREEMENT

This Wind Farm Participation and Support Agreement (this "**Agreement**"), is dated and effective as of March 19, 2019 ("**Effective Date**"), by and between William P. Barnes and E. Angela Barnes, husband and wife (collectively, "**Owner**") and **Lincoln Land Wind, LLC**, a Delaware limited liability company ("**Grantee**").

RECITALS:

A. Owner is the owner of that certain tract of real property located in Morgan County, Illinois, more particularly described on Exhibit A attached hereto and made a part hereof (the "**Property**");

B. Grantee has acquired, or will acquire, certain easements and other related rights covering real property located adjacent to and/or in the vicinity of the Property (collectively, the "**Wind Farm Property**") for purposes of the construction, installation, maintenance, use and operation of wind energy conversion turbines ("**Wind Turbines**"), electrical distribution and transmission facilities and related roads and facilities (collectively, the "**Wind Facilities**");

C. Owner desires to participate in the wind farm project being developed by Grantee on the Wind Farm Property in Morgan County, Illinois (the "**Wind Farm**") in accordance with the terms and conditions contained herein; and

D. The Wind Farm may be constructed and put into operation in one or more phases (each a "**Phase**") that are distinguishable from the remainder of the Wind Farm, as determined by Grantee in its reasonable discretion.

AGREEMENT:

NOW, THEREFORE, in consideration of the premises and other good and valuable consideration, the receipt and adequacy of which are hereby acknowledged, the parties hereto agree as follows:

1. **Setbacks.**

(a) Notwithstanding any applicable law, ordinance, regulation or permit establishes, or has established, minimum setbacks from the exterior boundaries of the Property for Wind Facilities constructed on Wind Farm Property, to the extent permitted by applicable law, Owner hereby waives any and all such setback requirements with respect to each and every property line of the Property (the "**Setback Waiver**"). For the avoidance of doubt, this Agreement does not grant to Grantee the right to construct Wind Facilities on the Property.

(b) Grantee will abide by all laws, ordinances, regulations, and permit provisions establishing setbacks from occupied residences on the Property as of the date hereof, and in no event shall Grantee construct a Wind Turbine within One Thousand Two Hundred Feet (1,200') of any occupied residence located on the Property (as measured from the edge of the base of the Wind Turbine to the exterior of the closest foundation of any occupied residence on the Property as of the date hereof).

(c) The parties recognize that Grantee is developing Wind Facilities on the Wind Farm Property, and this Setback Waiver is for the benefit of Grantee, the owner(s) of adjacent Wind Farm Property, and their respective successors and assigns, and shall run with the land.

2. **Participation in Wind Farm and Dispute Resolution.** Owner agrees to be deemed a participating landowner with respect to the Wind Farm. In the event Owner has concerns or issues with regard to the construction, installation, maintenance, use or operation of Wind Facilities, Owner agrees to have informal discussions with Grantee, including in-person meetings, for a period of thirty (30) days before pursuing other means to resolve the issues or concerns. Owner agrees to and shall execute such estoppel certificates (certifying as to such matters as Grantee may reasonably request) and/or non-disturbance agreements as Grantee or any Lender may reasonably request from time to time.

3. **Term of Agreement.** Subject to the terms and conditions of this Agreement, the term of this Agreement shall commence on the Effective Date and continue for forty-two (42) years (the "**Term**"), unless earlier terminated by Grantee by written notice to Owner or as otherwise provided herein. If the Construction Commencement Date (defined below) has not occurred prior to the seventh (7^{th}) anniversary of the Effective Date, this Agreement shall automatically terminate. The "**Construction Commencement Date**" shall be the date when excavation work for the installation of a foundation for a Wind Turbine constructed by Grantee on any portion of the Wind Farm Property begins or when excavation work for roads by Grantee on the Wind Farm Property related to its commencement of construction of any Wind Facilities. The Grantee Shall have the option to record a notice of the Construction Commencement Date, with reference to this Agreement, provided that Grantee shall deliver a copy of such notice to Owner within thirty (30) days after recordation of such notice.

4. **Limit on Termination.** Notwithstanding Section 3, except as provided in Section 12 below, or as otherwise provided herein, Grantee shall not terminate or surrender its right, title and interest in this Agreement for any portion of the Property located within one-half (1/2) mile of a Wind Turbine (measured from the center of the Wind Turbine) operated by Grantee as part of the Wind Farm, without the written consent of the Owner, unless there is a title curative issue, permitting issue, or environmental issue affecting the Property, in which case Grantee may terminate this Agreement with respect to that portion of the Property so affected.

5. **Consideration**. As consideration for the rights granted herein, Grantee shall make

payments to Owner during the Term as set forth in the Fee Schedule attached hereto ("**Fee Schedule**"). The Fee Schedule shall be omitted from the recorded Agreement as provided in Section 10 below.

6. **Authority**. Owner represents and warrants that it is the sole owner of the Property and has the unrestricted right and authority to execute this Agreement and to grant to Grantee the rights granted hereunder.

7. **Assignment**. Grantee shall have the right at any time, without need for Owner's consent, to assign or convey all or any portion of this Agreement to an assignee or assignees, on an exclusive or nonexclusive basis, or to mortgage or collaterally assign all or any part of its interest in the Agreement and its rights under the Agreement to any entity (a "**Lender**") without the consent of Owner. Any Lender will have no obligations under this Agreement until such time as it exercises its rights to acquire Grantee's interest subject to the lien of Lender's mortgage by foreclosure or otherwise or assumes the obligations of Grantee under this Agreement. So long as any mortgage with a Lender remains in effect, this Agreement shall not be modified, and Owner shall not accept a surrender of the Property or a termination or release of this Agreement, without the prior consent of all Lenders. Owner, upon providing Grantee any notice of default under this Agreement, shall at the same time provide a copy of such notice to each Lender. Owner shall accept any performance by or at the instigation of any such Lender as if the same had been done by Grantee (but no Lender shall have any obligation to remedy or cause the remedy of any default).

8. **Events of Default**. Each of the following shall constitute an event of default, which shall permit the non-defaulting party, at its discretion, to terminate this Agreement and/or pursue such other remedies as are available to it at law or in equity:

(a) any failure by Grantee to pay any amount owed pursuant to Section 4 above if the failure to pay continues for thirty (30) days after Grantee's receipt of written notice from Owner; and

(b) any other material breach of this Agreement by either party which continues for thirty (30) days after written notice of default from the non-defaulting party or, if the cure will take longer than thirty (30) days, the length of time necessary to effect such cure so long as the defaulting party commences to cure within the thirty (30) day period and continuously and diligently pursues the cure to completion.

9. **Notice**. All notices, requests, demands, waivers, approvals, consents and other communications required or permitted by this Agreement ("**Notices**") shall be given in writing by personal delivery (confirmed by courier delivery service), or facsimile, receipt confirmed, or first class U.S. mail, postage prepaid, return receipt requested, certified, addressed as follows:

Grantee shall not be required to make any rent payment to Owner under this Agreement until such time as Owner has returned to Grantee a completed and executed Internal Revenue Service Form W-9 and a payment instruction form signed by each person or entity holding record title to the Property. Any party may change its address for purposes of this paragraph by giving Notice of such change to the other parties in the manner provided in this paragraph. Any Notice provided for herein shall become effective only upon actual receipt by the party to whom it is given, unless such Notice is only mailed by certified mail, return receipt requested, in which case it shall be deemed to be received five (5) business days after the date it is mailed.

10. **Recording**. Owner and Grantee agree that this Agreement (without the Fee Schedule) shall be recorded in the real property records of the county in which the Property is located.

11. **Confidentiality**. Owner shall maintain in confidence all information pertaining to the financial terms of or payments under this Agreement, whether disclosed by Grantee or discovered by Owner, unless such information is in the public domain by reason of prior publication through no act or omission of Owner or its employees or agents. Owner shall not publish or otherwise disclose such information to others except to accountants, lawyers, or other professionals who receive such information under an obligation of confidentiality; buyers of the Property; lenders that have a security interest in the Property; or family members who agree to keep such information confidential. The provisions of this Section 11 shall survive the termination or expiration of this Agreement.

12. **Wind Energy Lease Agreement**. In the event that Owner and Grantee enter into a Wind Energy Lease Agreement or other similar instrument whereby Owner grants Grantee the exclusive right to install Wind Turbines and/or Wind Facilities on the Property, then this Agreement shall be superseded by such instrument and this Agreement and all payment obligations hereunder shall terminate as of the effective date of such instrument. The foregoing shall not obligate either party to enter into any Wind Energy Lease Agreement or other similar instrument unless it determines in its own best interest to do so. For the avoidance of doubt, this Agreement does not grant Grantee the right to install Wind Turbines and/or Wind Facilities on the Property.

13. **Binding Effect; Governing Law.** All the terms, conditions, covenants and other provisions contained in this Agreement, including benefits and burdens, shall be binding upon and shall run with the land and shall inure to the benefit of and be enforceable by Owner and Grantee, and their respective heirs, successors and assigns. The provisions hereof shall be governed by and construed in accordance with the laws of the State of Illinois, excluding the choice of law provisions thereof.

[*signature pages follow*]

IN WITNESS WHEREOF, AND INTENDING TO BE LEGALLY BOUND HEREBY, Owner and Grantee have caused this Agreement to be duly executed and delivered by their authorized representatives to be effective as of the date first written above.

WIND FARM PARTICIPATION AND SUPPORT AGREEMENT

This Wind Farm Participation and Support Agreement (this "**Agreement**"), is dated and effective as of April 2, 2019 ("**Effective Date**"), by and between **Donald W. Tillery and Debra S. Tillery, husband and wife** (collectively, "**Owner**") and **Lincoln Land Wind, LLC**, a Delaware limited liability company ("**Grantee**").

RECITALS:

A. Owner is the owner of that certain tract of real property located in Morgan County, Illinois, more particularly described on Exhibit A attached hereto and made a part hereof (the "**Property**");

B. Grantee has acquired, or will acquire, certain easements and other related rights covering real property located adjacent to and/or in the vicinity of the Property (collectively, the "**Wind Farm Property**") for purposes of the construction, installation, maintenance, use and operation of wind energy conversion turbines ("**Wind Turbines**"), electrical distribution and transmission facilities and related roads and facilities (collectively, the "**Wind Facilities**");

C. Owner desires to participate in the wind farm project being developed by Grantee on the Wind Farm Property in Morgan County, Illinois (the "**Wind Farm**") in accordance with the terms and conditions contained herein; and

D. The Wind Farm may be constructed and put into operation in one or more phases (each a "**Phase**") that are distinguishable from the remainder of the Wind Farm, as determined by Grantee in its reasonable discretion.

AGREEMENT:

NOW, THEREFORE, in consideration of the premises and other good and valuable consideration, the receipt and adequacy of which are hereby acknowledged, the parties hereto agree as follows:

1. **Setbacks.**

(a) Notwithstanding any applicable law, ordinance, regulation or permit establishes, or has established, minimum setbacks from the exterior boundaries of the Property for Wind Facilities constructed on Wind Farm Property, to the extent permitted by applicable law, Owner hereby waives any and all such setback requirements with respect to each and every property line of the Property (the "**Setback Waiver**"). For the avoidance of doubt, this Agreement does not grant to Grantee the right to construct Wind Facilities on the Property.

(b) Grantee will abide by all laws, ordinances, regulations, and permit provisions establishing setbacks from occupied residences on the Property as of the date hereof, and in no event shall Grantee construct a Wind Turbine within One Thousand Two Hundred Feet (1,200') of any occupied residence located on the Property (as measured from the edge of the base of the Wind Turbine to the exterior of the closest foundation of any occupied residence on the Property as of the date hereof).

(c) The parties recognize that Grantee is developing Wind Facilities on the Wind Farm Property, and this Setback Waiver is for the benefit of Grantee, the owner(s) of adjacent Wind Farm Property, and their respective successors and assigns, and shall run with the land.

2. **Participation in Wind Farm and Dispute Resolution.** Owner agrees to be deemed a participating landowner with respect to the Wind Farm. In the event Owner has concerns or issues with regard to the construction, installation, maintenance, use or operation of Wind Facilities, Owner agrees to have informal discussions with Grantee, including in-person meetings, for a period of thirty (30) days before pursuing other means to resolve the issues or concerns. Owner agrees to and shall execute such estoppel certificates (certifying as to such matters as Grantee may reasonably request) and/or non-disturbance agreements as Grantee or any Lender may reasonably request from time to time.

3. **Term of Agreement.** Subject to the terms and conditions of this Agreement, the term of this Agreement shall commence on the Effective Date and continue for forty-two (42) years (the "**Term**"), unless earlier terminated by Grantee by written notice to Owner or as otherwise provided herein. If the Construction Commencement Date (defined below) has not occurred prior to the seventh (7^{th}) anniversary of the Effective Date, this Agreement shall automatically terminate. The "**Construction Commencement Date**" shall be the date when excavation work for the installation of a foundation for a Wind Turbine constructed by Grantee on any portion of the Wind Farm Property begins or when excavation work for roads by Grantee on the Wind Farm Property related to its commencement of construction of any Wind Facilities. The Grantee Shall have the option to record a notice of the Construction Commencement Date, with reference to this Agreement, provided that Grantee shall deliver a copy of such notice to Owner within thirty (30) days after recordation of such notice.

4. **Limit on Termination.** Notwithstanding Section 3, except as provided in Section 12 below, or as otherwise provided herein, Grantee shall not terminate or surrender its right, title and interest in this Agreement for any portion of the Property located within one-half (1/2) mile of a Wind Turbine (measured from the center of the Wind Turbine) operated by Grantee as part of the Wind Farm, without the written consent of the Owner, unless there is a title curative issue, permitting issue, or environmental issue affecting the Property, in which case Grantee may terminate this Agreement with respect to that portion of the Property so affected.

5. **Consideration**. As consideration for the rights granted herein, Grantee shall make

payments to Owner during the Term as set forth in the Fee Schedule attached hereto ("**Fee Schedule**"). The Fee Schedule shall be omitted from the recorded Agreement as provided in Section 10 below.

6. **Authority**. Owner represents and warrants that it is the sole owner of the Property and has the unrestricted right and authority to execute this Agreement and to grant to Grantee the rights granted hereunder.

7. **Assignment**. Grantee shall have the right at any time, without need for Owner's consent, to assign or convey all or any portion of this Agreement to an assignee or assignees, on an exclusive or nonexclusive basis, or to mortgage or collaterally assign all or any part of its interest in the Agreement and its rights under the Agreement to any entity (a "**Lender**") without the consent of Owner. Any Lender will have no obligations under this Agreement until such time as it exercises its rights to acquire Grantee's interest subject to the lien of Lender's mortgage by foreclosure or otherwise or assumes the obligations of Grantee under this Agreement. So long as any mortgage with a Lender remains in effect, this Agreement shall not be modified, and Owner shall not accept a surrender of the Property or a termination or release of this Agreement, without the prior consent of all Lenders. Owner, upon providing Grantee any notice of default under this Agreement, shall at the same time provide a copy of such notice to each Lender. Owner shall accept any performance by or at the instigation of any such Lender as if the same had been done by Grantee (but no Lender shall have any obligation to remedy or cause the remedy of any default).

8. **Events of Default**. Each of the following shall constitute an event of default, which shall permit the non-defaulting party, at its discretion, to terminate this Agreement and/or pursue such other remedies as are available to it at law or in equity:

(a) any failure by Grantee to pay any amount owed pursuant to Section 4 above if the failure to pay continues for thirty (30) days after Grantee's receipt of written notice from Owner; and

(b) any other material breach of this Agreement by either party which continues for thirty (30) days after written notice of default from the non-defaulting party or, if the cure will take longer than thirty (30) days, the length of time necessary to effect such cure so long as the defaulting party commences to cure within the thirty (30) day period and continuously and diligently pursues the cure to completion.

9. **Notice**. All notices, requests, demands, waivers, approvals, consents and other communications required or permitted by this Agreement ("**Notices**") shall be given in writing by personal delivery (confirmed by courier delivery service), or facsimile, receipt confirmed, or first class U.S. mail, postage prepaid, return receipt requested, certified, addressed as follows:

Telephone: 217-413-9535

Grantee shall not be required to make any rent payment to Owner under this Agreement until such time as Owner has returned to Grantee a completed and executed Internal Revenue Service Form W-9 and a payment instruction form signed by each person or entity holding record title to the Property. Any party may change its address for purposes of this paragraph by giving Notice of such change to the other parties in the manner provided in this paragraph. Any Notice provided for herein shall become effective only upon actual receipt by the party to whom it is given, unless such Notice is only mailed by certified mail, return receipt requested, in which case it shall be deemed to be received five (5) business days after the date it is mailed.

10. **Recording**. Owner and Grantee agree that this Agreement (without the Fee Schedule) shall be recorded in the real property records of the county in which the Property is located.

11. **Confidentiality**. Owner shall maintain in confidence all information pertaining to the financial terms of or payments under this Agreement, whether disclosed by Grantee or discovered by Owner, unless such information is in the public domain by reason of prior publication through no act or omission of Owner or its employees or agents. Owner shall not publish or otherwise disclose such information to others except to accountants, lawyers, or other professionals who receive such information under an obligation of confidentiality; buyers of the Property; lenders that have a security interest in the Property; or family members who agree to keep such information confidential. The provisions of this Section 11 shall survive the termination or expiration of this Agreement.

12. **Wind Energy Lease Agreement**. In the event that Owner and Grantee enter into a Wind Energy Lease Agreement or other similar instrument whereby Owner grants Grantee the exclusive right to install Wind Turbines and/or Wind Facilities on the Property, then this Agreement shall be superseded by such instrument and this Agreement and all payment obligations hereunder shall terminate as of the effective date of such instrument. The foregoing shall not obligate either party to enter into any Wind Energy Lease Agreement or other similar instrument unless it determines in its own best interest to do so. For the avoidance of doubt, this Agreement does not grant Grantee the right to install Wind Turbines and/or Wind Facilities on the Property.

13. **Binding Effect; Governing Law.** All the terms, conditions, covenants and other provisions contained in this Agreement, including benefits and burdens, shall be binding upon and shall run with the land and shall inure to the benefit of and be enforceable by Owner and Grantee, and their respective heirs, successors and assigns. The provisions hereof shall be governed by and construed in accordance with the laws of the State of Illinois, excluding the choice of law provisions thereof.

WIND FARM PARTICIPATION AND SUPPORT AGREEMENT

This Wind Farm Participation and Support Agreement (this "**Agreement**"), is dated and effective as of April 10, 2019 ("**Effective Date**"), by and between **Betty B. Strawn, a single person** ("**Owner**") and **Lincoln Land Wind, LLC**, a Delaware limited liability company ("**Grantee**").

RECITALS:

A. Owner is the owner of that certain tract of real property located in Morgan County, Illinois, more particularly described on Exhibit A attached hereto and made a part hereof (the "**Property**");

B. Grantee has acquired, or will acquire, certain easements and other related rights covering real property located adjacent to and/or in the vicinity of the Property (collectively, the "**Wind Farm Property**") for purposes of the construction, installation, maintenance, use and operation of wind energy conversion turbines ("**Wind Turbines**"), electrical distribution and transmission facilities and related roads and facilities (collectively, the "**Wind Facilities**");

C. Owner desires to participate in the wind farm project being developed by Grantee on the Wind Farm Property in Morgan County, Illinois (the "**Wind Farm**") in accordance with the terms and conditions contained herein; and

D. The Wind Farm may be constructed and put into operation in one or more phases (each a "**Phase**") that are distinguishable from the remainder of the Wind Farm, as determined by Grantee in its reasonable discretion.

AGREEMENT:

NOW, THEREFORE, in consideration of the premises and other good and valuable consideration, the receipt and adequacy of which are hereby acknowledged, the parties hereto agree as follows:

1. **Setbacks.**

(a) Notwithstanding any applicable law, ordinance, regulation or permit establishes, or has established, minimum setbacks from the exterior boundaries of the Property for Wind Facilities constructed on Wind Farm Property, to the extent permitted by applicable law, Owner hereby waives any and all such setback requirements with respect to each and every property line of the Property (the "**Setback Waiver**"). For the avoidance of doubt, this Agreement does not grant to Grantee the right to construct Wind Facilities on the Property.

(b) Grantee will abide by all laws, ordinances, regulations, and permit provisions establishing setbacks from occupied residences on the Property as of the date hereof, and in no event shall Grantee construct a Wind Turbine within One Thousand Two Hundred Feet (1,200') of any occupied residence located on the Property (as measured from the edge of the base of the Wind Turbine to the exterior of the closest foundation of any occupied residence on the Property as of the date hereof).

(c) The parties recognize that Grantee is developing Wind Facilities on the Wind Farm Property, and this Setback Waiver is for the benefit of Grantee, the owner(s) of adjacent Wind Farm Property, and their respective successors and assigns, and shall run with the land.

2. **Participation in Wind Farm and Dispute Resolution.** Owner agrees to be deemed a participating landowner with respect to the Wind Farm. In the event Owner has concerns or issues with regard to the construction, installation, maintenance, use or operation of Wind Facilities, Owner agrees to have informal discussions with Grantee, including in-person meetings, for a period of thirty (30) days before pursuing other means to resolve the issues or concerns. Owner agrees to and shall execute such estoppel certificates (certifying as to such matters as Grantee may reasonably request) and/or non-disturbance agreements as Grantee or any Lender may reasonably request from time to time.

3. **Term of Agreement.** Subject to the terms and conditions of this Agreement, the term of this Agreement shall commence on the Effective Date and continue for forty-two (42) years (the "**Term**"), unless earlier terminated by Grantee by written notice to Owner or as otherwise provided herein. If the Construction Commencement Date (defined below) has not occurred prior to the seventh (7^{th}) anniversary of the Effective Date, this Agreement shall automatically terminate. The "**Construction Commencement Date**" shall be the date when excavation work for the installation of a foundation for a Wind Turbine constructed by Grantee on any portion of the Wind Farm Property begins or when excavation work for roads by Grantee on the Wind Farm Property related to its commencement of construction of any Wind Facilities. The Grantee Shall have the option to record a notice of the Construction Commencement Date, with reference to this Agreement, provided that Grantee shall deliver a copy of such notice to Owner within thirty (30) days after recordation of such notice.

4. **Limit on Termination.** Notwithstanding Section 3, except as provided in Section 12 below, or as otherwise provided herein, Grantee shall not terminate or surrender its right, title and interest in this Agreement for any portion of the Property located within one-half (1/2) mile of a Wind Turbine (measured from the center of the Wind Turbine) operated by Grantee as part of the Wind Farm, without the written consent of the Owner, unless there is a title curative issue, permitting issue, or environmental issue affecting the Property, in which case Grantee may terminate this Agreement with respect to that portion of the Property so affected.

5. **Consideration**. As consideration for the rights granted herein, Grantee shall make

payments to Owner during the Term as set forth in the Fee Schedule attached hereto ("**Fee Schedule**"). The Fee Schedule shall be omitted from the recorded Agreement as provided in Section 10 below.

6. **Authority**. Owner represents and warrants that it is the sole owner of the Property and has the unrestricted right and authority to execute this Agreement and to grant to Grantee the rights granted hereunder.

7. **Assignment**. Grantee shall have the right at any time, without need for Owner's consent, to assign or convey all or any portion of this Agreement to an assignee or assignees, on an exclusive or nonexclusive basis, or to mortgage or collaterally assign all or any part of its interest in the Agreement and its rights under the Agreement to any entity (a "**Lender**") without the consent of Owner. Any Lender will have no obligations under this Agreement until such time as it exercises its rights to acquire Grantee's interest subject to the lien of Lender's mortgage by foreclosure or otherwise or assumes the obligations of Grantee under this Agreement. So long as any mortgage with a Lender remains in effect, this Agreement shall not be modified, and Owner shall not accept a surrender of the Property or a termination or release of this Agreement, without the prior consent of all Lenders. Owner, upon providing Grantee any notice of default under this Agreement, shall at the same time provide a copy of such notice to each Lender. Owner shall accept any performance by or at the instigation of any such Lender as if the same had been done by Grantee (but no Lender shall have any obligation to remedy or cause the remedy of any default).

8. **Events of Default**. Each of the following shall constitute an event of default, which shall permit the non-defaulting party, at its discretion, to terminate this Agreement and/or pursue such other remedies as are available to it at law or in equity:

(a) any failure by Grantee to pay any amount owed pursuant to Section 4 above if the failure to pay continues for thirty (30) days after Grantee's receipt of written notice from Owner; and

(b) any other material breach of this Agreement by either party which continues for thirty (30) days after written notice of default from the non-defaulting party or, if the cure will take longer than thirty (30) days, the length of time necessary to effect such cure so long as the defaulting party commences to cure within the thirty (30) day period and continuously and diligently pursues the cure to completion.

9. **Notice**. All notices, requests, demands, waivers, approvals, consents and other communications required or permitted by this Agreement ("**Notices**") shall be given in writing by personal delivery (confirmed by courier delivery service), or facsimile, receipt confirmed, or first class U.S. mail, postage prepaid, return receipt requested, certified, addressed as follows:

Grantee shall not be required to make any rent payment to Owner under this Agreement until such time as Owner has returned to Grantee a completed and executed Internal Revenue Service Form W-9 and a payment instruction form signed by each person or entity holding record title to the Property. Any party may change its address for purposes of this paragraph by giving Notice of such change to the other parties in the manner provided in this paragraph. Any Notice provided for herein shall become effective only upon actual receipt by the party to whom it is given, unless such Notice is only mailed by certified mail, return receipt requested, in which case it shall be deemed to be received five (5) business days after the date it is mailed.

10. **Recording**. Owner and Grantee agree that this Agreement (without the Fee Schedule) shall be recorded in the real property records of the county in which the Property is located.

11. **Confidentiality**. Owner shall maintain in confidence all information pertaining to the financial terms of or payments under this Agreement, whether disclosed by Grantee or discovered by Owner, unless such information is in the public domain by reason of prior publication through no act or omission of Owner or its employees or agents. Owner shall not publish or otherwise disclose such information to others except to accountants, lawyers, or other professionals who receive such information under an obligation of confidentiality; buyers of the Property; lenders that have a security interest in the Property; or family members who agree to keep such information confidential. The provisions of this Section 11 shall survive the termination or expiration of this Agreement.

12. **Wind Energy Lease Agreement**. In the event that Owner and Grantee enter into a Wind Energy Lease Agreement or other similar instrument whereby Owner grants Grantee the exclusive right to install Wind Turbines and/or Wind Facilities on the Property, then this Agreement shall be superseded by such instrument and this Agreement and all payment obligations hereunder shall terminate as of the effective date of such instrument. The foregoing shall not obligate either party to enter into any Wind Energy Lease Agreement or other similar instrument unless it determines in its own best interest to do so. For the avoidance of doubt, this Agreement does not grant Grantee the right to install Wind Turbines and/or Wind Facilities on the Property.

13. **Binding Effect; Governing Law.** All the terms, conditions, covenants and other provisions contained in this Agreement, including benefits and burdens, shall be binding upon and shall run with the land and shall inure to the benefit of and be enforceable by Owner and Grantee, and their respective heirs, successors and assigns. The provisions hereof shall be governed by and construed in accordance with the laws of the State of Illinois, excluding the choice of law provisions thereof.

WIND FARM PARTICIPATION AND SUPPORT AGREEMENT

This Wind Farm Participation and Support Agreement (this "**Agreement**"), is dated and effective as of May 17, 2019 ("**Effective Date**"), by and between **Richard R. Freeman, Trustee of the Richard R. Freeman Trust No. 2016, established by Declaration of Trust dated October 4, 2016 and Tina G. Freeman, Trustee of the Tina G. Freeman Trust No. 2016, established by Declaration of Trust dated October 4, 2016** (collectively, "**Owner**") and **Lincoln Land Wind, LLC**, a Delaware limited liability company ("**Grantee**").

RECITALS:

A. Owner is the owner of that certain tract of real property located in Morgan County, Illinois, more particularly described on Exhibit A attached hereto and made a part hereof (the "**Property**");

B. Grantee has acquired, or will acquire, certain easements and other related rights covering real property located adjacent to and/or in the vicinity of the Property (collectively, the "**Wind Farm Property**") for purposes of the construction, installation, maintenance, use and operation of wind energy conversion turbines ("**Wind Turbines**"), electrical distribution and transmission facilities and related roads and facilities (collectively, the "**Wind Facilities**");

C. Owner desires to participate in the wind farm project being developed by Grantee on the Wind Farm Property in Morgan County, Illinois (the "**Wind Farm**") in accordance with the terms and conditions contained herein; and

D. The Wind Farm may be constructed and put into operation in one or more phases (each a "**Phase**") that are distinguishable from the remainder of the Wind Farm, as determined by Grantee in its reasonable discretion.

AGREEMENT:

NOW, THEREFORE, in consideration of the premises and other good and valuable consideration, the receipt and adequacy of which are hereby acknowledged, the parties hereto agree as follows:

1. **Setbacks.**

(a) Notwithstanding any applicable law, ordinance, regulation or permit establishes, or has established, minimum setbacks from the exterior boundaries of the Property for Wind Facilities constructed on Wind Farm Property, to the extent permitted by applicable law, Owner hereby waives any and all such setback requirements with respect to each and every property line of the Property (the "**Setback Waiver**"). For the avoidance of doubt, this Agreement does not grant to Grantee the right to construct Wind Facilities on the Property.

(b) Grantee will abide by all laws, ordinances, regulations, and permit provisions establishing setbacks from occupied residences on the Property as of the date hereof, and in no event shall Grantee construct a Wind Turbine within One Thousand Two Hundred Feet (1,200') of any occupied residence located on the Property (as measured from the edge of the base of the Wind Turbine to the exterior of the closest foundation of any occupied residence on the Property as of the date hereof).

(c) The parties recognize that Grantee is developing Wind Facilities on the Wind Farm Property, and this Setback Waiver is for the benefit of Grantee, the owner(s) of adjacent Wind Farm Property, and their respective successors and assigns, and shall run with the land.

2. **Participation in Wind Farm and Dispute Resolution.** Owner agrees to be deemed a participating landowner with respect to the Wind Farm. In the event Owner has concerns or issues with regard to the construction, installation, maintenance, use or operation of Wind Facilities, Owner agrees to have informal discussions with Grantee, including in-person meetings, for a period of thirty (30) days before pursuing other means to resolve the issues or concerns. Owner agrees to and shall execute such estoppel certificates (certifying as to such matters as Grantee may reasonably request) and/or non-disturbance agreements as Grantee or any Lender may reasonably request from time to time.

3. **Term of Agreement.** Subject to the terms and conditions of this Agreement, the term of this Agreement shall commence on the Effective Date and continue for forty-two (42) years (the "**Term**"), unless earlier terminated by Grantee by written notice to Owner or as otherwise provided herein. If the Construction Commencement Date (defined below) has not occurred prior to the seventh (7^{th}) anniversary of the Effective Date, this Agreement shall automatically terminate. The "**Construction Commencement Date**" shall be the date when excavation work for the installation of a foundation for a Wind Turbine constructed by Grantee on any portion of the Wind Farm Property begins or when excavation work for roads by Grantee on the Wind Farm Property related to its commencement of construction of any Wind Facilities. The Grantee Shall have the option to record a notice of the Construction Commencement Date, with reference to this Agreement, provided that Grantee shall deliver a copy of such notice to Owner within thirty (30) days after recordation of such notice.

4. **Limit on Termination.** Notwithstanding Section 3, except as provided in Section 12 below, or as otherwise provided herein, Grantee shall not terminate or surrender its right, title and interest in this Agreement for any portion of the Property located within one-half (1/2) mile of a Wind Turbine (measured from the center of the Wind Turbine) operated by Grantee as part of the Wind Farm, without the written consent of the Owner, unless there is a title curative issue, permitting issue, or environmental issue affecting the Property, in which case Grantee may terminate this Agreement with respect to that portion of the Property so affected.

5. **Consideration**. As consideration for the rights granted herein, Grantee shall make

payments to Owner during the Term as set forth in the Fee Schedule attached hereto ("**Fee Schedule**"). The Fee Schedule shall be omitted from the recorded Agreement as provided in Section 10 below.

6. **Authority**. Owner represents and warrants that it is the sole owner of the Property and has the unrestricted right and authority to execute this Agreement and to grant to Grantee the rights granted hereunder.

7. **Assignment**. Grantee shall have the right at any time, without need for Owner's consent, to assign or convey all or any portion of this Agreement to an assignee or assignees, on an exclusive or nonexclusive basis, or to mortgage or collaterally assign all or any part of its interest in the Agreement and its rights under the Agreement to any entity (a "**Lender**") without the consent of Owner. Any Lender will have no obligations under this Agreement until such time as it exercises its rights to acquire Grantee's interest subject to the lien of Lender's mortgage by foreclosure or otherwise or assumes the obligations of Grantee under this Agreement. So long as any mortgage with a Lender remains in effect, this Agreement shall not be modified, and Owner shall not accept a surrender of the Property or a termination or release of this Agreement, without the prior consent of all Lenders. Owner, upon providing Grantee any notice of default under this Agreement, shall at the same time provide a copy of such notice to each Lender. Owner shall accept any performance by or at the instigation of any such Lender as if the same had been done by Grantee (but no Lender shall have any obligation to remedy or cause the remedy of any default).

8. **Events of Default**. Each of the following shall constitute an event of default, which shall permit the non-defaulting party, at its discretion, to terminate this Agreement and/or pursue such other remedies as are available to it at law or in equity:

(a) any failure by Grantee to pay any amount owed pursuant to Section 4 above if the failure to pay continues for thirty (30) days after Grantee's receipt of written notice from Owner; and

(b) any other material breach of this Agreement by either party which continues for thirty (30) days after written notice of default from the non-defaulting party or, if the cure will take longer than thirty (30) days, the length of time necessary to effect such cure so long as the defaulting party commences to cure within the thirty (30) day period and continuously and diligently pursues the cure to completion.

9. **Notice**. All notices, requests, demands, waivers, approvals, consents and other communications required or permitted by this Agreement ("**Notices**") shall be given in writing by personal delivery (confirmed by courier delivery service), or facsimile, receipt confirmed, or first class U.S. mail, postage prepaid, return receipt requested, certified, addressed as follows:

Any Notice provided for herein shall become effective only upon actual receipt by the party to whom it is given, unless such Notice is only mailed by certified mail, return receipt requested, in which case it shall be deemed to be received five (5) business days after the date it is mailed.

10. **Recording**. Owner and Grantee agree that this Agreement (without the Fee Schedule) shall be recorded in the real property records of the county in which the Property is located.

11. **Confidentiality**. Owner shall maintain in confidence all information pertaining to the financial terms of or payments under this Agreement, whether disclosed by Grantee or discovered by Owner, unless such information is in the public domain by reason of prior publication through no act or omission of Owner or its employees or agents. Owner shall not publish or otherwise disclose such information to others except to accountants, lawyers, or other professionals who receive such information under an obligation of confidentiality; buyers of the Property; lenders that have a security interest in the Property; or family members who agree to keep such information confidential. The provisions of this Section 11 shall survive the termination or expiration of this Agreement.

12. **Wind Energy Lease Agreement**. In the event that Owner and Grantee enter into a Wind Energy Lease Agreement or other similar instrument whereby Owner grants Grantee the exclusive right to install Wind Turbines and/or Wind Facilities on the Property, then this Agreement shall be superseded by such instrument and this Agreement and all payment obligations hereunder shall terminate as of the effective date of such instrument. The foregoing shall not obligate either party to enter into any Wind Energy Lease Agreement or other similar instrument unless it determines in its own best interest to do so. For the avoidance of doubt, this Agreement does not grant Grantee the right to install Wind Turbines and/or Wind Facilities on the Property.

13. **Binding Effect; Governing Law.** All the terms, conditions, covenants and other provisions contained in this Agreement, including benefits and burdens, shall be binding upon and shall run with the land and shall inure to the benefit of and be enforceable by Owner and Grantee, and their respective heirs, successors and assigns. The provisions hereof shall be governed by and construed in accordance with the laws of the State of Illinois, excluding the choice of law provisions thereof.

WIND FARM PARTICIPATION AND SUPPORT AGREEMENT

This Wind Farm Participation and Support Agreement (this "**Agreement**"), is dated and effective as of May 29, 2019 ("**Effective Date**"), by and between **Larry M. Robinson and Tamra R. Robinson, husband and wife** (collectively, "**Owner**") and **Lincoln Land Wind, LLC**, a Delaware limited liability company ("**Grantee**").

RECITALS:

A. Owner is the owner of that certain tract of real property located in Morgan County, Illinois, more particularly described on Exhibit A attached hereto and made a part hereof (the "**Property**");

B. Grantee has acquired, or will acquire, certain easements and other related rights covering real property located adjacent to and/or in the vicinity of the Property (collectively, the "**Wind Farm Property**") for purposes of the construction, installation, maintenance, use and operation of wind energy conversion turbines ("**Wind Turbines**"), electrical distribution and transmission facilities and related roads and facilities (collectively, the "**Wind Facilities**");

C. Owner desires to participate in the wind farm project being developed by Grantee on the Wind Farm Property in Morgan County, Illinois (the "**Wind Farm**") in accordance with the terms and conditions contained herein; and

D. The Wind Farm may be constructed and put into operation in one or more phases (each a "**Phase**") that are distinguishable from the remainder of the Wind Farm, as determined by Grantee in its reasonable discretion.

AGREEMENT:

NOW, THEREFORE, in consideration of the premises and other good and valuable consideration, the receipt and adequacy of which are hereby acknowledged, the parties hereto agree as follows:

1. **Setbacks.**

(a) Notwithstanding any applicable law, ordinance, regulation or permit establishes, or has established, minimum setbacks from the exterior boundaries of the Property for Wind Facilities constructed on Wind Farm Property, to the extent permitted by applicable law, Owner hereby waives any and all such setback requirements with respect to each and every property line of the Property (the "**Setback Waiver**"). For the avoidance of doubt, this Agreement does not grant to Grantee the right to construct Wind Facilities on the Property.

(b) Grantee will abide by all laws, ordinances, regulations, and permit provisions establishing setbacks from occupied residences on the Property as of the date hereof, and in no event shall Grantee construct a Wind Turbine within One Thousand Two Hundred Feet (1,200') of any occupied residence located on the Property (as measured from the edge of the base of the Wind Turbine to the exterior of the closest foundation of any occupied residence on the Property as of the date hereof).

(c) The parties recognize that Grantee is developing Wind Facilities on the Wind Farm Property, and this Setback Waiver is for the benefit of Grantee, the owner(s) of adjacent Wind Farm Property, and their respective successors and assigns, and shall run with the land.

2. **Participation in Wind Farm and Dispute Resolution.** Owner agrees to be deemed a participating landowner with respect to the Wind Farm. In the event Owner has concerns or issues with regard to the construction, installation, maintenance, use or operation of Wind Facilities, Owner agrees to have informal discussions with Grantee, including in-person meetings, for a period of thirty (30) days before pursuing other means to resolve the issues or concerns. Owner agrees to and shall execute such estoppel certificates (certifying as to such matters as Grantee may reasonably request) and/or non-disturbance agreements as Grantee or any Lender may reasonably request from time to time.

3. **Term of Agreement.** Subject to the terms and conditions of this Agreement, the term of this Agreement shall commence on the Effective Date and continue for forty-two (42) years (the "**Term**"), unless earlier terminated by Grantee by written notice to Owner or as otherwise provided herein. If the Construction Commencement Date (defined below) has not occurred prior to the seventh (7^{th}) anniversary of the Effective Date, this Agreement shall automatically terminate. The "**Construction Commencement Date**" shall be the date when excavation work for the installation of a foundation for a Wind Turbine constructed by Grantee on any portion of the Wind Farm Property begins or when excavation work for roads by Grantee on the Wind Farm Property related to its commencement of construction of any Wind Facilities. The Grantee Shall have the option to record a notice of the Construction Commencement Date, with reference to this Agreement, provided that Grantee shall deliver a copy of such notice to Owner within thirty (30) days after recordation of such notice.

4. **Limit on Termination.** Notwithstanding Section 3, except as provided in Section 12 below, or as otherwise provided herein, Grantee shall not terminate or surrender its right, title and interest in this Agreement for any portion of the Property located within one-half (1/2) mile of a Wind Turbine (measured from the center of the Wind Turbine) operated by Grantee as part of the Wind Farm, without the written consent of the Owner, unless there is a title curative issue, permitting issue, or environmental issue affecting the Property, in which case Grantee may terminate this Agreement with respect to that portion of the Property so affected.

5. **Consideration**. As consideration for the rights granted herein, Grantee shall make

payments to Owner during the Term as set forth in the Fee Schedule attached hereto ("**Fee Schedule**"). The Fee Schedule shall be omitted from the recorded Agreement as provided in Section 10 below.

6. **Authority**. Owner represents and warrants that it is the sole owner of the Property and has the unrestricted right and authority to execute this Agreement and to grant to Grantee the rights granted hereunder.

7. **Assignment**. Grantee shall have the right at any time, without need for Owner's consent, to assign or convey all or any portion of this Agreement to an assignee or assignees, on an exclusive or nonexclusive basis, or to mortgage or collaterally assign all or any part of its interest in the Agreement and its rights under the Agreement to any entity (a "**Lender**") without the consent of Owner. Any Lender will have no obligations under this Agreement until such time as it exercises its rights to acquire Grantee's interest subject to the lien of Lender's mortgage by foreclosure or otherwise or assumes the obligations of Grantee under this Agreement. So long as any mortgage with a Lender remains in effect, this Agreement shall not be modified, and Owner shall not accept a surrender of the Property or a termination or release of this Agreement, without the prior consent of all Lenders. Owner, upon providing Grantee any notice of default under this Agreement, shall at the same time provide a copy of such notice to each Lender. Owner shall accept any performance by or at the instigation of any such Lender as if the same had been done by Grantee (but no Lender shall have any obligation to remedy or cause the remedy of any default).

8. **Events of Default**. Each of the following shall constitute an event of default, which shall permit the non-defaulting party, at its discretion, to terminate this Agreement and/or pursue such other remedies as are available to it at law or in equity:

(a) any failure by Grantee to pay any amount owed pursuant to Section 4 above if the failure to pay continues for thirty (30) days after Grantee's receipt of written notice from Owner; and

(b) any other material breach of this Agreement by either party which continues for thirty (30) days after written notice of default from the non-defaulting party or, if the cure will take longer than thirty (30) days, the length of time necessary to effect such cure so long as the defaulting party commences to cure within the thirty (30) day period and continuously and diligently pursues the cure to completion.

9. **Notice**. All notices, requests, demands, waivers, approvals, consents and other communications required or permitted by this Agreement ("**Notices**") shall be given in writing by personal delivery (confirmed by courier delivery service), or facsimile, receipt confirmed, or first class U.S. mail, postage prepaid, return receipt requested, certified, addressed as follows:

Fax: (434) 220-3712

Grantee shall not be required to make any rent payment to Owner under this Agreement until such time as Owner has returned to Grantee a completed and executed Internal Revenue Service Form W-9 and a payment instruction form signed by each person or entity holding record title to the Property. Any party may change its address for purposes of this paragraph by giving Notice of such change to the other parties in the manner provided in this paragraph. Any Notice provided for herein shall become effective only upon actual receipt by the party to whom it is given, unless such Notice is only mailed by certified mail, return receipt requested, in which case it shall be deemed to be received five (5) business days after the date it is mailed.

10. **Recording**. Owner and Grantee agree that this Agreement (without the Fee Schedule) shall be recorded in the real property records of the county in which the Property is located.

11. **Confidentiality**. Owner shall maintain in confidence all information pertaining to the financial terms of or payments under this Agreement, whether disclosed by Grantee or discovered by Owner, unless such information is in the public domain by reason of prior publication through no act or omission of Owner or its employees or agents. Owner shall not publish or otherwise disclose such information to others except to accountants, lawyers, or other professionals who receive such information under an obligation of confidentiality; buyers of the Property; lenders that have a security interest in the Property; or family members who agree to keep such information confidential. The provisions of this Section 11 shall survive the termination or expiration of this Agreement.

12. **Wind Energy Lease Agreement**. In the event that Owner and Grantee enter into a Wind Energy Lease Agreement or other similar instrument whereby Owner grants Grantee the exclusive right to install Wind Turbines and/or Wind Facilities on the Property, then this Agreement shall be superseded by such instrument and this Agreement and all payment obligations hereunder shall terminate as of the effective date of such instrument. The foregoing shall not obligate either party to enter into any Wind Energy Lease Agreement or other similar instrument unless it determines in its own best interest to do so. For the avoidance of doubt, this Agreement does not grant Grantee the right to install Wind Turbines and/or Wind Facilities on the Property.

13. **Binding Effect; Governing Law.** All the terms, conditions, covenants and other provisions contained in this Agreement, including benefits and burdens, shall be binding upon and shall run with the land and shall inure to the benefit of and be enforceable by Owner and Grantee, and their respective heirs, successors and assigns. The provisions hereof shall be governed by and construed in accordance with the laws of the State of Illinois, excluding the choice of law provisions thereof.

WIND FARM PARTICIPATION AND SUPPORT AGREEMENT

This Wind Farm Participation and Support Agreement (this "**Agreement**"), is dated and effective as of April 1st, 2019 ("**Effective Date**"), by and between **Justin A. Mather and Kelse E. Mather, husband and wife** (collectively, "**Owner**") and **Lincoln Land Wind, LLC**, a Delaware limited liability company ("**Grantee**").

RECITALS:

A. Owner is the owner of that certain tract of real property located in Morgan County, Illinois, more particularly described on Exhibit A attached hereto and made a part hereof (the "**Property**");

B. Grantee has acquired, or will acquire, certain easements and other related rights covering real property located adjacent to and/or in the vicinity of the Property (collectively, the "**Wind Farm Property**") for purposes of the construction, installation, maintenance, use and operation of wind energy conversion turbines ("**Wind Turbines**"), electrical distribution and transmission facilities and related roads and facilities (collectively, the "**Wind Facilities**");

C. Owner desires to participate in the wind farm project being developed by Grantee on the Wind Farm Property in Morgan County, Illinois (the "**Wind Farm**") in accordance with the terms and conditions contained herein; and

D. The Wind Farm may be constructed and put into operation in one or more phases (each a "**Phase**") that are distinguishable from the remainder of the Wind Farm, as determined by Grantee in its reasonable discretion.

AGREEMENT:

NOW, THEREFORE, in consideration of the premises and other good and valuable consideration, the receipt and adequacy of which are hereby acknowledged, the parties hereto agree as follows:

1. **Setbacks.**

(a) Notwithstanding any applicable law, ordinance, regulation or permit establishes, or has established, minimum setbacks from the exterior boundaries of the Property for Wind Facilities constructed on Wind Farm Property, to the extent permitted by applicable law, Owner hereby waives any and all such setback requirements with respect to each and every property line of the Property (the "**Setback Waiver**"). For the avoidance of doubt, this Agreement does not grant to Grantee the right to construct Wind Facilities on the Property.

(b) Grantee will abide by all laws, ordinances, regulations, and permit provisions establishing setbacks from occupied residences on the Property as of the date hereof, and in no event shall Grantee construct a Wind Turbine within One Thousand Two Hundred Feet (1,200') of any occupied residence located on the Property (as measured from the edge of the base of the Wind Turbine to the exterior of the closest foundation of any occupied residence on the Property as of the date hereof).

(c) The parties recognize that Grantee is developing Wind Facilities on the Wind Farm Property, and this Setback Waiver is for the benefit of Grantee, the owner(s) of adjacent Wind Farm Property, and their respective successors and assigns, and shall run with the land.

2. **Participation in Wind Farm and Dispute Resolution.** Owner agrees to be deemed a participating landowner with respect to the Wind Farm. In the event Owner has concerns or issues with regard to the construction, installation, maintenance, use or operation of Wind Facilities, Owner agrees to have informal discussions with Grantee, including in-person meetings, for a period of thirty (30) days before pursuing other means to resolve the issues or concerns. Owner agrees to and shall execute such estoppel certificates (certifying as to such matters as Grantee may reasonably request) and/or non-disturbance agreements as Grantee or any Lender may reasonably request from time to time.

3. **Term of Agreement.** Subject to the terms and conditions of this Agreement, the term of this Agreement shall commence on the Effective Date and continue for forty-two (42) years (the "**Term**"), unless earlier terminated by Grantee by written notice to Owner or as otherwise provided herein. If the Construction Commencement Date (defined below) has not occurred prior to the seventh (7^{th}) anniversary of the Effective Date, this Agreement shall automatically terminate. The "**Construction Commencement Date**" shall be the date when excavation work for the installation of a foundation for a Wind Turbine constructed by Grantee on any portion of the Wind Farm Property begins or when excavation work for roads by Grantee on the Wind Farm Property related to its commencement of construction of any Wind Facilities. The Grantee Shall have the option to record a notice of the Construction Commencement Date, with reference to this Agreement, provided that Grantee shall deliver a copy of such notice to Owner within thirty (30) days after recordation of such notice.

4. **Limit on Termination.** Notwithstanding Section 3, except as provided in Section 12 below, or as otherwise provided herein, Grantee shall not terminate or surrender its right, title and interest in this Agreement for any portion of the Property located within one-half (1/2) mile of a Wind Turbine (measured from the center of the Wind Turbine) operated by Grantee as part of the Wind Farm, without the written consent of the Owner, unless there is a title curative issue, permitting issue, or environmental issue affecting the Property, in which case Grantee may terminate this Agreement with respect to that portion of the Property so affected.

5. **Consideration**. As consideration for the rights granted herein, Grantee shall make

payments to Owner during the Term as set forth in the Fee Schedule attached hereto ("**Fee Schedule**"). The Fee Schedule shall be omitted from the recorded Agreement as provided in Section 10 below.

6. **Authority**. Owner represents and warrants that it is the sole owner of the Property and has the unrestricted right and authority to execute this Agreement and to grant to Grantee the rights granted hereunder.

7. **Assignment**. Grantee shall have the right at any time, without need for Owner's consent, to assign or convey all or any portion of this Agreement to an assignee or assignees, on an exclusive or nonexclusive basis, or to mortgage or collaterally assign all or any part of its interest in the Agreement and its rights under the Agreement to any entity (a "**Lender**") without the consent of Owner. Any Lender will have no obligations under this Agreement until such time as it exercises its rights to acquire Grantee's interest subject to the lien of Lender's mortgage by foreclosure or otherwise or assumes the obligations of Grantee under this Agreement. So long as any mortgage with a Lender remains in effect, this Agreement shall not be modified, and Owner shall not accept a surrender of the Property or a termination or release of this Agreement, without the prior consent of all Lenders. Owner, upon providing Grantee any notice of default under this Agreement, shall at the same time provide a copy of such notice to each Lender. Owner shall accept any performance by or at the instigation of any such Lender as if the same had been done by Grantee (but no Lender shall have any obligation to remedy or cause the remedy of any default).

8. **Events of Default**. Each of the following shall constitute an event of default, which shall permit the non-defaulting party, at its discretion, to terminate this Agreement and/or pursue such other remedies as are available to it at law or in equity:

(a) any failure by Grantee to pay any amount owed pursuant to Section 4 above if the failure to pay continues for thirty (30) days after Grantee's receipt of written notice from Owner; and

WIND FARM PARTICIPATION AND SUPPORT AGREEMENT

This Wind Farm Participation and Support Agreement (this "**Agreement**"), is dated and effective as of July 30, 2019 ("**Effective Date**"), by and between **Steven J. Steinacher and Deborah M. Steinacher, husband and wife** (collectively, "**Owner**") and **Lincoln Land Wind, LLC**, a Delaware limited liability company ("**Grantee**").

RECITALS:

A. Owner is the owner of that certain tract of real property located in Morgan County, Illinois, more particularly described on Exhibit A attached hereto and made a part hereof (the "**Property**");

B. Grantee has acquired, or will acquire, certain easements and other related rights covering real property located adjacent to and/or in the vicinity of the Property (collectively, the "**Wind Farm Property**") for purposes of the construction, installation, maintenance, use and operation of wind energy conversion turbines ("**Wind Turbines**"), electrical distribution and transmission facilities and related roads and facilities (collectively, the "**Wind Facilities**");

C. Owner desires to participate in the wind farm project being developed by Grantee on the Wind Farm Property in Morgan County, Illinois (the "**Wind Farm**") in accordance with the terms and conditions contained herein; and

D. The Wind Farm may be constructed and put into operation in one or more phases (each a "**Phase**") that are distinguishable from the remainder of the Wind Farm, as determined by Grantee in its reasonable discretion.

AGREEMENT:

NOW, THEREFORE, in consideration of the premises and other good and valuable consideration, the receipt and adequacy of which are hereby acknowledged, the parties hereto agree as follows:

1. **Setback Waiver.**

1.1 To the extent that any applicable law, ordinance, regulation or permit establishes, or has established, minimum setbacks from the exterior boundaries of the Property (or any structures thereon) for Wind Facilities constructed on Wind Farm Property, Owner hereby waives any and all such setback requirements (the "**Setback Waiver**"); provided however, Grantee agrees not to construct a Wind Turbine within One Thousand Two Hundred Feet (1,200') of any occupied residence located on the Property (as measured from the edge of the base of the Wind Turbine to the exterior of the closest foundation of any occupied residence on the Property as of the date hereof). For the avoidance of doubt, this Agreement does not grant to Grantee the right to construct Wind Facilities on the Property.

1.2 The Setback Waiver is for the benefit of Grantee, the owner(s) of adjacent Wind Farm Property, and their respective successors and assigns, and shall run with the land. If requested by Grantee, Owner shall execute and deliver to Grantee one or more separate setback waivers evidencing the intent of this Section 1, in a form provided by Grantee, which Grantee may then record at its expense.

2. **Term of Agreement.** This Agreement shall be for an initial term ("**Option Term**") commencing on the Effective Date and continuing for a period of seven (7) years. If, at any time during the Option Term the Commercial Operations Date (as defined below) for a Phase that includes the Property occurs, then the Option Term shall end and the term of this Agreement shall automatically be extended for a period of thirty (30) years (such period, the "**Operation Term**"). Unless earlier terminated, Grantee shall have the sole right and option to extend the Operation Term for two additional ten (10) year terms by providing written notice thereof to Owner within thirty (30) days of the end of the Operation Term. The Option Term plus the Operation Term, as the same may be extended, are collectively referred to in this Agreement as the "**Term**." Notwithstanding the foregoing, in no event shall the Term of this Agreement be longer than the longest period permitted by law. The "**Commercial Operations Date**" means the date that Wind Turbines representing at least ninety-five percent (95%) of the installed capacity of a particular Phase are authorized and able to continuously and reliably generate and deliver commercial quantities of energy.

3. **Termination.** Grantee shall have the right throughout the Term to terminate this Agreement as to all or any part of the Property upon thirty (30) days prior written notice to Owner. If the Commercial Operations Date does not occur prior to the seventh (7^{th}) anniversary of the Effective Date, this Agreement shall automatically terminate. Either party shall have the right to terminate this Agreement in whole or in part, at any time, upon written consent of the other party.

4. **Consideration**. As consideration for the rights granted herein, Grantee shall make payments to Owner during the Term as set forth in the Fee Schedule attached hereto ("**Fee Schedule**"). The Fee Schedule shall be omitted from the recorded Agreement as provided in Section 10 below.

5. **Authority**. Owner represents and warrants that it is the sole owner of the Property and has the unrestricted right and authority to execute this Agreement and to grant to Grantee the rights granted hereunder. Each person signing this Agreement on behalf of Owner is authorized to do so, and all persons having any ownership or possessory interest in the Property have signed this Agreement as Owner. There are no liens, encumbrances, leases, mortgages, deeds of trust, mineral or oil and gas rights, options, rights of refusal, preferential rights to purchase or lease, or other interests in (or exceptions to) Owner's fee title ownership of the Property which are not recorded in the public records of the county in which the Property

is located.

6. **Assignment**. Grantee shall have the right at any time, without need for Owner's consent, to assign or convey all or any portion of this Agreement to an assignee or assignees, on an exclusive or nonexclusive basis, or to mortgage or collaterally assign all or any part of its interest in the Agreement and its rights under the Agreement to any entity (a "**Lender**") without the consent of Owner. Any Lender will have no obligations under this Agreement until such time as it exercises its rights to acquire Grantee's interest subject to the lien of Lender's mortgage by foreclosure or otherwise or assumes the obligations of Grantee under this Agreement. So long as any mortgage with a Lender remains in effect, this Agreement shall not be modified, and Owner shall not accept a surrender of the Property or a termination or release of this Agreement, without the prior consent of all Lenders. Owner, upon providing Grantee any notice of default under this Agreement, shall at the same time provide a copy of such notice to each Lender. Owner shall accept any performance by or at the instigation of any such Lender as if the same had been done by Grantee (but no Lender shall have any obligation to remedy or cause the remedy of any default).

7. **Reasonable Assistance.** Owner consents to allowing Grantee to act on Owner's behalf to evidence Owner's consent as set forth in this Agreement. Owner agrees to and shall execute such estoppel certificates (certifying as to such matters as Grantee may reasonably request) and/or consents to assignment and/or non-disturbance agreements as Grantee or any Lender may reasonably request from time to time. Owner agrees not to object to the Wind Farm and to use reasonable efforts to assist Grantee's reasonable requests. In the event Owner has concerns or issues with regard to the construction, installation, maintenance, use or operation of Wind Facilities, Owner agrees to have informal discussions with Grantee, including in-person meetings, for a period of thirty (30) days before pursuing other means to resolve the issues or concerns.

8. **Events of Default**. Each of the following shall constitute an event of default, which shall permit the non-defaulting party, at its discretion, to terminate this Agreement and/or pursue such other remedies as are available to it at law or in equity:

(a) any failure by Grantee to pay any amount owed pursuant to Section 4 above if the failure to pay continues for thirty (30) days after Grantee's receipt of written notice from Owner; and

(b) any other material breach of this Agreement by either party which continues for thirty (30) days after written notice of default from the non-defaulting party or, if the cure will take longer than thirty (30) days, the length of time necessary to effect such cure so long as the defaulting party commences to cure within the thirty (30) day period and continuously and diligently pursues the cure to completion.

9. **Notice**. All notices, requests, demands, waivers, approvals, consents and other communications required or permitted by this Agreement ("**Notices**") shall be given in writing by personal delivery (confirmed by courier delivery service), or facsimile, receipt confirmed, or first class U.S. mail, postage prepaid, return receipt requested, certified, addressed as follows:

Grantee shall not be required to make any rent payment to Owner under this Agreement until such time as Owner has returned to Grantee a completed and executed Internal Revenue Service Form W-9 and a payment instruction form signed by each person or entity holding record title to the Property. Any party may change its address for purposes of this paragraph by giving Notice of such change to the other parties in the manner provided in this paragraph. Any Notice provided for herein shall become effective only upon actual receipt by the party to whom it is given, unless such Notice is only mailed by certified mail, return receipt requested, in which case it shall be deemed to be received five (5) business days after the date it is mailed.

10. **Recording**. Owner and Grantee agree that this Agreement (without the Fee Schedule) shall be recorded in the real property records of the county in which the Property is located.

11. **Confidentiality**. Owner shall maintain in confidence all information pertaining to the financial terms of or payments under this Agreement, whether disclosed by Grantee or discovered by Owner, unless such information is in the public domain by reason of prior publication through no act or omission of Owner or its employees or agents. Owner shall not publish or otherwise disclose such information to others except to accountants, lawyers, or other professionals who receive such information under an obligation of confidentiality; buyers of the Property; lenders that have a security interest in the Property; or family members who agree to keep such information confidential. The provisions of this Section 11 shall survive the termination or expiration of this Agreement.

12. **Wind Energy Lease Agreement**. In the event that Owner and Grantee enter into a Wind Energy Lease Agreement or other similar instrument whereby Owner grants Grantee the exclusive right to install Wind Turbines and/or Wind Facilities on the Property, then this Agreement shall be superseded by such instrument and this Agreement and all payment obligations hereunder shall terminate as of the effective date of such instrument. The foregoing shall not obligate either party to enter into any Wind Energy Lease Agreement or other similar instrument unless it determines in its own best interest to do so. For the avoidance of doubt, this Agreement does not grant Grantee the right to install Wind Turbines and/or Wind Facilities on the Property.

13. **Legal Fees**. In the event of any controversy, claim or dispute arising out of or relating to this Agreement or the enforcement or breach hereof, the prevailing party shall be entitled to recover from the losing party the prevailing party's reasonable costs, expenses and attorneys' fees (including but not limited to those incurred at trial, on appeal and on petition for review).

14. **Binding Effect; Governing Law.** All the terms, conditions, covenants and other provisions contained in this Agreement, including benefits and burdens, shall be binding upon and shall run with the land and shall inure to the benefit of and be enforceable by Owner and Grantee, and their respective heirs, successors and assigns. The provisions hereof shall be governed by and construed in accordance with the laws of the State of Illinois, excluding the choice of law provisions thereof.

IN WITNESS WHEREOF, AND INTENDING TO BE LEGALLY BOUND HEREBY, Owner and Grantee have caused this Agreement to be duly executed and delivered by their authorized representatives to be effective as of the date first written above.

WIND FARM PARTICIPATION AND SUPPORT AGREEMENT

This Wind Farm Participation and Support Agreement (this "**Agreement**"), is dated and effective as of August 9, 2019 ("**Effective Date**"), by and between **Evan Armstrong, a single~~/married~~ person** ("**Owner**") and **Lincoln Land Wind, LLC**, a Delaware limited liability company ("**Grantee**").

RECITALS:

A. Owner is the owner of that certain tract of real property located in Morgan County, Illinois, more particularly described on Exhibit A attached hereto and made a part hereof (the "**Property**");

B. Grantee has acquired, or will acquire, certain easements and other related rights covering real property located adjacent to and/or in the vicinity of the Property (collectively, the "**Wind Farm Property**") for purposes of the construction, installation, maintenance, use and operation of wind energy conversion turbines ("**Wind Turbines**"), electrical distribution and transmission facilities and related roads and facilities (collectively, the "**Wind Facilities**");

C. Owner desires to participate in the wind farm project being developed by Grantee on the Wind Farm Property in Morgan County, Illinois (the "**Wind Farm**") in accordance with the terms and conditions contained herein; and

D. The Wind Farm may be constructed and put into operation in one or more phases (each a "**Phase**") that are distinguishable from the remainder of the Wind Farm, as determined by Grantee in its reasonable discretion.

AGREEMENT:

NOW, THEREFORE, in consideration of the premises and other good and valuable consideration, the receipt and adequacy of which are hereby acknowledged, the parties hereto agree as follows:

1. **Setbacks.**

(a) Notwithstanding any applicable law, ordinance, regulation or permit establishes, or has established, minimum setbacks from the exterior boundaries of the Property for Wind Facilities constructed on Wind Farm Property, to the extent permitted by applicable law, Owner hereby waives any and all such setback requirements with respect to each and every property line of the Property (the "**Setback Waiver**"). For the avoidance of doubt, this Agreement does not grant to Grantee the right to construct Wind Facilities on the Property.

(b) Grantee will abide by all laws, ordinances, regulations, and permit provisions establishing setbacks from occupied residences on the Property as of the date hereof, and in no event shall Grantee construct a Wind Turbine within One Thousand Two Hundred Feet (1,200') of any occupied residence located on the Property (as measured from the edge of the base of the Wind Turbine to the exterior of the closest foundation of any occupied residence on the Property as of the date hereof).

(c) The parties recognize that Grantee is developing Wind Facilities on the Wind Farm Property, and this Setback Waiver is for the benefit of Grantee, the owner(s) of adjacent Wind Farm Property, and their respective successors and assigns, and shall run with the land.

2. **Participation in Wind Farm and Dispute Resolution.** Owner agrees to be deemed a participating landowner with respect to the Wind Farm. In the event Owner has concerns or issues with regard to the construction, installation, maintenance, use or operation of Wind Facilities, Owner agrees to have informal discussions with Grantee, including in-person meetings, for a period of thirty (30) days before pursuing other means to resolve the issues or concerns. Owner agrees to and shall execute such estoppel certificates (certifying as to such matters as Grantee may reasonably request) and/or non-disturbance agreements as Grantee or any Lender may reasonably request from time to time.

3. **Term of Agreement.** Subject to the terms and conditions of this Agreement, the term of this Agreement shall commence on the Effective Date and continue for forty-two (42) years (the "**Term**"), unless earlier terminated by Grantee by written notice to Owner or as otherwise provided herein. If the Construction Commencement Date (defined below) has not occurred prior to the seventh (7^{th}) anniversary of the Effective Date, this Agreement shall automatically terminate. The "**Construction Commencement Date**" shall be the date when excavation work for the installation of a foundation for a Wind Turbine constructed by Grantee on any portion of the Wind Farm Property begins or when excavation work for roads by Grantee on the Wind Farm Property related to its commencement of construction of any Wind Facilities. The Grantee Shall have the option to record a notice of the Construction Commencement Date, with reference to this Agreement, provided that Grantee shall deliver a copy of such notice to Owner within thirty (30) days after recordation of such notice.

4. **Limit on Termination.** Notwithstanding Section 3, except as provided in Section 12 below, or as otherwise provided herein, Grantee shall not terminate or surrender its right, title and interest in this Agreement for any portion of the Property located within one-half (1/2) mile of a Wind Turbine (measured from the center of the Wind Turbine) operated by Grantee as part of the Wind Farm, without the written consent of the Owner, unless there is a title curative issue, permitting issue, or environmental issue affecting the Property, in which case Grantee may terminate this Agreement with respect to that portion of the Property so affected.

5. **Consideration**. As consideration for the rights granted herein, Grantee shall make

payments to Owner during the Term as set forth in the Fee Schedule attached hereto ("**Fee Schedule**"). The Fee Schedule shall be omitted from the recorded Agreement as provided in Section 10 below.

6. **Authority**. Owner represents and warrants that it is the sole owner of the Property and has the unrestricted right and authority to execute this Agreement and to grant to Grantee the rights granted hereunder.

7. **Assignment**. Grantee shall have the right at any time, without need for Owner's consent, to assign or convey all or any portion of this Agreement to an assignee or assignees, on an exclusive or nonexclusive basis, or to mortgage or collaterally assign all or any part of its interest in the Agreement and its rights under the Agreement to any entity (a "**Lender**") without the consent of Owner. Any Lender will have no obligations under this Agreement until such time as it exercises its rights to acquire Grantee's interest subject to the lien of Lender's mortgage by foreclosure or otherwise or assumes the obligations of Grantee under this Agreement. So long as any mortgage with a Lender remains in effect, this Agreement shall not be modified, and Owner shall not accept a surrender of the Property or a termination or release of this Agreement, without the prior consent of all Lenders. Owner, upon providing Grantee any notice of default under this Agreement, shall at the same time provide a copy of such notice to each Lender. Owner shall accept any performance by or at the instigation of any such Lender as if the same had been done by Grantee (but no Lender shall have any obligation to remedy or cause the remedy of any default).

8. **Events of Default**. Each of the following shall constitute an event of default, which shall permit the non-defaulting party, at its discretion, to terminate this Agreement and/or pursue such other remedies as are available to it at law or in equity:

(a) any failure by Grantee to pay any amount owed pursuant to Section 4 above if the failure to pay continues for thirty (30) days after Grantee's receipt of written notice from Owner; and

(b) any other material breach of this Agreement by either party which continues for thirty (30) days after written notice of default from the non-defaulting party or, if the cure will take longer than thirty (30) days, the length of time necessary to effect such cure so long as the defaulting party commences to cure within the thirty (30) day period and continuously and diligently pursues the cure to completion.

9. **Notice**. All notices, requests, demands, waivers, approvals, consents and other communications required or permitted by this Agreement ("**Notices**") shall be given in writing by personal delivery (confirmed by courier delivery service), or facsimile, receipt confirmed, or first class U.S. mail, postage prepaid, return receipt requested, certified, addressed as follows:

Grantee shall not be required to make any rent payment to Owner under this Agreement until such time as Owner has returned to Grantee a completed and executed Internal Revenue Service Form W-9 and a payment instruction form signed by each person or entity holding record title to the Property. Any party may change its address for purposes of this paragraph by giving Notice of such change to the other parties in the manner provided in this paragraph. Any Notice provided for herein shall become effective only upon actual receipt by the party to whom it is given, unless such Notice is only mailed by certified mail, return receipt requested, in which case it shall be deemed to be received five (5) business days after the date it is mailed.

10. **Recording**. Owner and Grantee agree that this Agreement (without the Fee Schedule) shall be recorded in the real property records of the county in which the Property is located.

11. **Confidentiality**. Owner shall maintain in confidence all information pertaining to the financial terms of or payments under this Agreement, whether disclosed by Grantee or discovered by Owner, unless such information is in the public domain by reason of prior publication through no act or omission of Owner or its employees or agents. Owner shall not publish or otherwise disclose such information to others except to accountants, lawyers, or other professionals who receive such information under an obligation of confidentiality; buyers of the Property; lenders that have a security interest in the Property; or family members who agree to keep such information confidential. The provisions of this Section 11 shall survive the termination or expiration of this Agreement.

12. **Wind Energy Lease Agreement**. In the event that Owner and Grantee enter into a Wind Energy Lease Agreement or other similar instrument whereby Owner grants Grantee the exclusive right to install Wind Turbines and/or Wind Facilities on the Property, then this Agreement shall be superseded by such instrument and this Agreement and all payment obligations hereunder shall terminate as of the effective date of such instrument. The foregoing shall not obligate either party to enter into any Wind Energy Lease Agreement or other similar instrument unless it determines in its own best interest to do so. For the avoidance of doubt, this Agreement does not grant Grantee the right to install Wind Turbines and/or Wind Facilities on the Property.

13. **Binding Effect; Governing Law.** All the terms, conditions, covenants and other provisions contained in this Agreement, including benefits and burdens, shall be binding upon and shall run with the land and shall inure to the benefit of and be enforceable by Owner and Grantee, and their respective heirs, successors and assigns. The provisions hereof shall be governed by and construed in accordance with the laws of the State of Illinois, excluding the choice of law provisions thereof.

Grantee shall have the right at any time, without need for Owner's consent, to assign or convey all or any portion of this Agreement to an assignee or assignees, on an exclusive or nonexclusive basis, or to mortgage or collaterally assign all or any part of its interest in the Agreement and its rights under the Agreement to any entity (a "**Lender**") without the consent of Owner. Any Lender will have no obligations under this Agreement until such time as it exercises its rights to acquire Grantee's interest subject to the lien of Lender's mortgage by foreclosure or otherwise or assumes the obligations of Grantee under this Agreement. So long as any mortgage with a Lender remains in effect, this Agreement shall not be modified, and Owner shall not accept a surrender of the Property or a termination or release of this Agreement, without the prior consent of all Lenders. Owner, upon providing Grantee any notice of default under this Agreement, shall at the same time provide a copy of such notice to each Lender. Owner shall accept any performance by or at the instigation of any such Lender as if the same had been done by Grantee (but no Lender shall have any obligation to remedy or cause the remedy of any default).

8. **Events of Default**. Each of the following shall constitute an event of default, which shall permit the non-defaulting party, at its discretion, to terminate this Agreement and/or pursue such other remedies as are available to it at law or in equity:

(a) any failure by Grantee to pay any amount owed pursuant to Section 4 above if the failure to pay continues for thirty (30) days after Grantee's receipt of written notice from Owner; and

(b) any other material breach of this Agreement by either party which continues for thirty (30) days after written notice of default from the non-defaulting party or, if the cure will take longer than thirty (30) days, the length of time necessary to effect such cure so long as the defaulting party commences to cure within the thirty (30) day period and continuously and diligently pursues the cure to completion.

9. **Notice**. All notices, requests, demands, waivers, approvals, consents and other communications required or permitted by this Agreement ("**Notices**") shall be given in writing by personal delivery (confirmed by courier delivery service), or facsimile, receipt confirmed, or first class U.S. mail, postage prepaid, return receipt requested, certified, addressed as follows:

If to Owner:

Gavin M. Duewer

If to Grantee:

Grantee shall not be required to make any rent payment to Owner under this Agreement until such time as Owner has returned to Grantee a completed and executed Internal Revenue Service Form W-9 and a payment instruction form signed by each person or entity holding record title to the Property. Any party may change its address for purposes of this paragraph by giving Notice of such change to the other parties in the manner provided in this paragraph. Any Notice provided for herein shall become effective only upon actual receipt by the party to whom it is given, unless such Notice is only mailed by certified mail, return receipt requested, in which case it shall be deemed to be received five (5) business days after the date it is mailed.

10. **Recording**. Owner and Grantee agree that this Agreement (without the Fee Schedule) shall be recorded in the real property records of the county in which the Property is located.

11. **Confidentiality**. Owner shall maintain in confidence all information pertaining to the financial terms of or payments under this Agreement, whether disclosed by Grantee or discovered by Owner, unless such information is in the public domain by reason of prior publication through no act or omission of Owner or its employees or agents. Owner shall not publish or otherwise disclose such information to others except to accountants, lawyers, or other professionals who receive such information under an obligation of confidentiality; buyers of the Property; lenders that have a security interest in the Property; or family members who agree to keep such information confidential. The provisions of this Section 11 shall survive the termination or expiration of this Agreement.

12. **Wind Energy Lease Agreement**. In the event that Owner and Grantee enter into a Wind Energy Lease Agreement or other similar instrument whereby Owner grants Grantee the exclusive right to install Wind Turbines and/or Wind Facilities on the Property, then this Agreement shall be superseded by such instrument and this Agreement and all payment obligations hereunder shall terminate as of the effective date of such instrument. The foregoing shall not obligate either party to enter into any Wind Energy Lease Agreement or other similar instrument unless it determines in its own best interest to do so. For the avoidance of doubt, this Agreement does not grant Grantee the right to install Wind Turbines and/or Wind Facilities on the Property.

13. **Binding Effect; Governing Law.** All the terms, conditions, covenants and other provisions contained in this Agreement, including benefits and burdens, shall be binding upon and shall run with the land and shall inure to the benefit of and be enforceable by Owner and Grantee, and their respective heirs, successors and assigns. The provisions hereof shall be governed by and construed in accordance with the laws of the State of Illinois, excluding the choice of law provisions thereof.

[*signature pages follow*]

IN WITNESS WHEREOF, AND INTENDING TO BE LEGALLY BOUND HEREBY, Owner and Grantee have caused this Agreement to be duly executed and delivered by their authorized representatives to be effective as of the date first written above.

GRANT OF EASEMENT AND EASEMENT AGREEMENT FOR UNDERGROUND FACILITIES

THIS GRANT OF EASEMENT AND EASEMENT AGREEMENT FOR UNDERGROUND FACILITIES (this "Agreement") is made as of the 11th day of September, 20 19 (the "Effective Date"), between Darrel L. Thoma and Amy Thoma, husband and wife (collectively, "Owner"), and LINCOLN LAND WIND, LLC, a Delaware limited liability company ("Grantee"). Owner is the sole owner of certain property located in Morgan County, Illinois, as more particularly described in Exhibit A attached hereto and made part hereof (the "Property").

1. Grant of Underground Easement. For good and valuable consideration, the receipt and legal sufficiency of which is hereby acknowledged by Owner, Owner grants, conveys and warrants to Grantee and its successors and assigns, an exclusive easement ("Underground Easement") on, along, over, under and across the portion of the Property shown on Exhibit A-1 attached hereto (the "Easement Area") for the right to construct, reconstruct, replace, repair, remove, maintain, operate and use underground wires and cables for the transmission of electrical energy and/or for communication purposes, above-ground junction boxes, and all necessary and proper appliances, fixtures and facilities for use in connection with said wires and cables along, under and across the Easement Area; together with a right-of way in, on, along, over and across the Easement Area. Said wires, cables, appliances, fixtures and facilities are herein collectively called the "Underground Facilities". Owner grants to Grantee the right to utilize the Easement Area for a temporary crane path; provided, however, that such crane path shall be within one hundred fifty feet (150') total, on either or both sides of planned or existing Underground Facilities unless otherwise approved in writing by Owner.

2. Access. Accompanying the Underground Easement Grantee shall have the right of ingress and egress to and from the Easement Area by and for all personnel, labor, goods, services, materials, vehicles, equipment, and other items reasonably required by Grantee in order to effect the purposes described in this Agreement. Grantee may use any existing roads and lanes on the Property, and shall have the right to maintain and improve such roads and lanes. Grantee shall have

the further right to use any fences and gates on the Property; provided Grantee coordinates such use with Owner.

3. Term and Termination. The parties recognize that Grantee is developing Wind Facilities (as defined in Section 10(a) herein) on the Wind Farm Property (as defined in Section 10(a) herein), and the easements granted pursuant to this Agreement are shall be beneficial easements for Grantee's development of the Wind Facilities. Subject to the terms and conditions of this Agreement, the term of this Agreement shall commence on the Effective Date and continue for forty-two (42) years (the "Term"), unless earlier terminated by Grantee by written notice to Owner or as otherwise provided in this Section. If the Construction Commencement Date (defined below) has not occurred prior to the seventh (7^{th}) anniversary of the Effective Date, this Agreement shall automatically terminate. The "Construction Commencement Date" shall be the date when excavation work for the installation of a foundation for a Wind Turbine (as defined in Section 10(a) herein) constructed by Grantee on any portion of the Wind Farm Property begins or when excavation work for roads by Grantee on the Wind Farm Property related to its commencement of construction of any Wind Facilities. The Grantee shall have the option to record a notice of the Construction Commencement Date, with reference to this Agreement, provided that Grantee shall deliver a copy of such notice to Owner within thirty (30) days after recordation of such notice.

4. Assignment. Grantee may assign this Agreement or its rights with respect to the Underground Easement, in whole or in part, without the need for Owner's consent. This Agreement shall run with the land. This Agreement shall inure to the benefit of, and be binding upon, Owner and Grantee and their respective transferees, legal representatives, heirs, successors and assigns and all persons claiming under them.

5. Payment. As consideration for the Underground Easement, Grantee shall make the payments to Owner as set forth in the Fee Schedule attached hereto as Exhibit B (the "Fee Schedule"). The Fee Schedule shall be omitted from the recorded version of the Agreement as provided in Section 11 below.

6. No Interference. Owner shall not conduct any activity, nor grant any rights to any third party that would interfere with Grantee's use of the Easement Area or the rights granted under this Agreement and Owner shall not disturb, uncover or damage any Underground Facilities.

7. Drain Tile Repair. Grantee shall make commercially reasonable repairs (including replacement of damaged tile as necessary) of any tile damage caused by Grantee's construction or operation activities within the Easement Area. Grantee shall also pay crop damage for any crops damaged by flood due to broken tile which would not have occurred but for Grantee's activities within the Easement Area and indemnify Owner against any third-party claims for any such flood damage. In the event that any such tile damage is not repaired by Grantee, Owner shall have up to 36 months from the date of alleged tile damage to identify such damaged area and substantiate that such tile damage was caused by Grantee's activities. Underground electrical wires and cables shall be installed with a trencher to a depth not less than 42 inches below the natural surface of the ground and below any existing drain tile. All farm drainage tile which intersects the Grantee's Underground Facilities shall be identified and repaired and/or replaced if damaged by Grantee, by a contractor qualified in farm drainage. Grantee agrees to consult, in good faith, with Owner regarding the repair and/or replacement of said drainage tile. Owner shall have the right to inspect all tile repairs and

connections prior to backfill, provided Owner is immediately available to do so. If Owner is not available, Grantee's contractor shall provide Owner with digital photographs of the repair. Upon completion of the Wind Facilities and the commercial production of electricity from all of the Wind Facilities, Grantee shall provide Owner with i) a GPS coordinate reading of the location of such repaired or replaced tile and ii) an illustration depicting the location of all Underground Facilities within the Easement Area, as well as the intersection of all such Underground Facilities with the drainage tile system within the Easement Area. In the event that Owner's activities within the Easement Area subsequent to installation of the Underground Facilities and the commercial production of electricity from all of the Wind Turbines constructed by Grantee on the Wind Farm Property shall require identification of the physical location of the Underground Facilities, Grantee agrees to arrange to do so, at no expense to Owner, within ten (10) business days of receiving the locate request.

8. Financing

(a) Grantee may collaterally assign, mortgage or otherwise encumber its interest in this Agreement to any institution (including any trustee or agent on behalf of such institution) providing debt or other financing to Grantee or its successors or assigns (each, a "Financing Party") under any mortgage, deed of trust, deed to secure debt or other security instrument by which Grantee's interest under this Agreement is mortgaged, conveyed, assigned or otherwise transferred to secure a debt or other obligation to a Financing Party (each, a "Mortgage"). Each Financing Party who provides notice to Owner of its Mortgage shall be referred to as "Mortgagee."

(b) So long as any Mortgage remains in effect, this Agreement shall not be modified, and Owner shall not accept a surrender of the Property or a termination or release of this Agreement, without the prior consent of all Mortgagees.

(c) Owner, upon providing Grantee any notice of default under, or termination of, this Agreement, shall at the same time provide a copy of such notice to each Mortgagee. Such Mortgagee shall have the same period, after the giving of such notice, for remedying any default or causing the same to be remedied (but shall have no obligation to remedy or cause the remedy of any default), as is given Grantee after the giving of such notice to Grantee to remedy the default specified in any such notice. Owner shall accept such performance by or at the instigation of such Mortgagee as if the same had been done by Grantee.

(d) Owner shall execute such estoppel certificates (certifying as to such matters as Grantee may reasonably request), acknowledgements of an assignment of this Agreement, and/or non-disturbance agreements as Grantee or any Mortgagee may reasonably request from time to time.

(e) If this Agreement is terminated as a result of any default or the bankruptcy, insolvency or appointment of a receiver in bankruptcy for Grantee, Owner shall give prompt notice to the Mortgagees. Owner shall, upon written request of the first priority Mortgagee, made within forty (40) days after notice to such Mortgagee, enter into a new easement agreement with such Mortgagee, or its designee, within twenty (20) days after the receipt of such request. Such new easement agreement shall be effective as of the date of the termination of this Agreement by reason of default by Grantee, and shall be for a term equal to the remainder of the Term of this Agreement and upon the same terms, covenants, conditions and agreements as contained in this Agreement. Upon the execution of any such new easement agreement, the Mortgagee shall agree in writing to perform or cause to be performed all of the covenants and agreements set forth in this Agreement to be performed by Grantee to the extent that Grantee failed to perform the same prior to the execution and delivery of the new easement agreement.

10. Setback Waiver.

(a) Grantee has acquired, or will acquire, certain leases, easements and other related rights covering real property located adjacent to and/or in the vicinity of the Property (collectively, the "Wind Farm Property") for purposes of the construction, installation, maintenance, use and operation of wind energy conversion turbines ("Wind Turbines"), electrical distribution and transmission facilities and related roads and facilities (collectively, the "Wind Facilities").

WIND FARM PARTICIPATION AND SUPPORT AGREEMENT

This Wind Farm Participation and Support Agreement (this "**Agreement**"), is dated and effective as of Sept 12, 2019 ("**Effective Date**"), by and between **Kari L. Farrell, a single person** ("**Owner**") and **Lincoln Land Wind, LLC**, a Delaware limited liability company ("**Grantee**").

RECITALS:

A. Owner is the owner of that certain tract of real property located in Morgan County, Illinois, more particularly described on Exhibit A attached hereto and made a part hereof (the "**Property**");

B. Grantee has acquired, or will acquire, certain easements and other related rights covering real property located adjacent to and/or in the vicinity of the Property (collectively, the "**Wind Farm Property**") for purposes of the construction, installation, maintenance, use and operation of wind energy conversion turbines ("**Wind Turbines**"), electrical distribution and transmission facilities and related roads and facilities (collectively, the "**Wind Facilities**");

C. Owner desires to participate in the wind farm project being developed by Grantee on the Wind Farm Property in Morgan County, Illinois (the "**Wind Farm**") in accordance with the terms and conditions contained herein; and

D. The Wind Farm may be constructed and put into operation in one or more phases (each a "**Phase**") that are distinguishable from the remainder of the Wind Farm, as determined by Grantee in its reasonable discretion.

AGREEMENT:

NOW, THEREFORE, in consideration of the premises and other good and valuable consideration, the receipt and adequacy of which are hereby acknowledged, the parties hereto agree as follows:

1. **Setbacks.**

(a) Notwithstanding any applicable law, ordinance, regulation or permit establishes, or has established, minimum setbacks from the exterior boundaries of the Property for Wind Facilities constructed on Wind Farm Property, to the extent permitted by applicable law, Owner hereby waives any and all such setback requirements with respect to each and every property line of the Property (the "**Setback Waiver**"). For the avoidance of doubt, this Agreement does not grant to Grantee the right to construct Wind Facilities on the Property.

(b) Grantee will abide by all laws, ordinances, regulations, and permit provisions establishing setbacks from occupied residences on the Property as of the date hereof, and in no event shall Grantee construct a Wind Turbine within One Thousand Three Hundred Twenty Feet (1,320') of any occupied residence located on the Property (as measured from the edge of the base of the Wind Turbine to the exterior of the closest foundation of any occupied residence on the Property as of the date hereof).

(c) The parties recognize that Grantee is developing Wind Facilities on the Wind Farm Property, and this Setback Waiver is for the benefit of Grantee, the owner(s) of adjacent Wind Farm Property, and their respective successors and assigns, and shall run with the land.

2. **Participation in Wind Farm and Dispute Resolution.** Owner agrees to be deemed a participating landowner with respect to the Wind Farm. In the event Owner has concerns or issues with regard to the construction, installation, maintenance, use or operation of Wind Facilities, Owner agrees to have informal discussions with Grantee, including in-person meetings, for a period of thirty (30) days before pursuing other means to resolve the issues or concerns. Owner agrees to and shall execute such estoppel certificates (certifying as to such matters as Grantee may reasonably request) and/or non-disturbance agreements as Grantee or any Lender may reasonably request from time to time.

3. **Term of Agreement.** Subject to the terms and conditions of this Agreement, the term of this Agreement shall commence on the Effective Date and continue for forty-two (42) years (the "**Term**"), unless earlier terminated by Grantee by written notice to Owner or as otherwise provided herein. If the Construction Commencement Date (defined below) has not occurred prior to the seventh (7^{th}) anniversary of the Effective Date, this Agreement shall automatically terminate. The "**Construction Commencement Date**" shall be the date when excavation work for the installation of a foundation for a Wind Turbine constructed by Grantee on any portion of the Wind Farm Property begins or when excavation work for roads by Grantee on the Wind Farm Property related to its commencement of construction of any Wind Facilities. The Grantee Shall have the option to record a notice of the Construction Commencement Date, with reference to this Agreement, provided that Grantee shall deliver a copy of such notice to Owner within thirty (30) days after recordation of such notice.

4. **Limit on Termination.** Notwithstanding Section 3, except as provided in Section 12 below, or as otherwise provided herein, Grantee shall not terminate or surrender its right, title and interest in this Agreement for any portion of the Property located within one-half (1/2) mile of a Wind Turbine (measured from the center of the Wind Turbine) operated by Grantee as part of the Wind Farm, without the written consent of the Owner, unless there is a title curative issue, permitting issue, or environmental issue affecting the Property, in which case Grantee may terminate this Agreement with respect to that portion of the Property so affected.

5. **Consideration**. As consideration for the rights granted herein, Grantee shall make

payments to Owner during the Term as set forth in the Fee Schedule attached hereto ("**Fee Schedule**"). The Fee Schedule shall be omitted from the recorded Agreement as provided in Section 10 below.

6. **Authority**. Owner represents and warrants that it is the sole owner of the Property and has the unrestricted right and authority to execute this Agreement and to grant to Grantee the rights granted hereunder.

7. **Assignment**. Grantee shall have the right at any time, without need for Owner's consent, to assign or convey all or any portion of this Agreement to an assignee or assignees, on an exclusive or nonexclusive basis, or to mortgage or collaterally assign all or any part of its interest in the Agreement and its rights under the Agreement to any entity (a "**Lender**") without the consent of Owner. Any Lender will have no obligations under this Agreement until such time as it exercises its rights to acquire Grantee's interest subject to the lien of Lender's mortgage by foreclosure or otherwise or assumes the obligations of Grantee under this Agreement. So long as any mortgage with a Lender remains in effect, this Agreement shall not be modified, and Owner shall not accept a surrender of the Property or a termination or release of this Agreement, without the prior consent of all Lenders. Owner, upon providing Grantee any notice of default under this Agreement, shall at the same time provide a copy of such notice to each Lender. Owner shall accept any performance by or at the instigation of any such Lender as if the same had been done by Grantee (but no Lender shall have any obligation to remedy or cause the remedy of any default).

8. **Events of Default**. Each of the following shall constitute an event of default, which shall permit the non-defaulting party, at its discretion, to terminate this Agreement and/or pursue such other remedies as are available to it at law or in equity:

(a) any failure by Grantee to pay any amount owed pursuant to Section 4 above if the failure to pay continues for thirty (30) days after Grantee's receipt of written notice from Owner; and

(b) any other material breach of this Agreement by either party which continues for thirty (30) days after written notice of default from the non-defaulting party or, if the cure will take longer than thirty (30) days, the length of time necessary to effect such cure so long as the defaulting party commences to cure within the thirty (30) day period and continuously and diligently pursues the cure to completion.

9. **Notice**. All notices, requests, demands, waivers, approvals, consents and other communications required or permitted by this Agreement ("**Notices**") shall be given in writing by personal delivery (confirmed by courier delivery service), or facsimile, receipt confirmed, or first class U.S. mail, postage prepaid, return receipt requested, certified, addressed as follows:

Grantee shall not be required to make any rent payment to Owner under this Agreement until such time as Owner has returned to Grantee a completed and executed Internal Revenue Service Form W-9 and a payment instruction form signed by each person or entity holding record title to the Property. Any party may change its address for purposes of this paragraph by giving Notice of such change to the other parties in the manner provided in this paragraph. Any Notice provided for herein shall become effective only upon actual receipt by the party to whom it is given, unless such Notice is only mailed by certified mail, return receipt requested, in which case it shall be deemed to be received five (5) business days after the date it is mailed.

10. **Recording**. Owner and Grantee agree that this Agreement (without the Fee Schedule) shall be recorded in the real property records of the county in which the Property is located.

11. **Confidentiality**. Owner shall maintain in confidence all information pertaining to the financial terms of or payments under this Agreement, whether disclosed by Grantee or discovered by Owner, unless such information is in the public domain by reason of prior publication through no act or omission of Owner or its employees or agents. Owner shall not publish or otherwise disclose such information to others except to accountants, lawyers, or other professionals who receive such information under an obligation of confidentiality; buyers of the Property; lenders that have a security interest in the Property; or family members who agree to keep such information confidential. The provisions of this Section 11 shall survive the termination or expiration of this Agreement.

12. **Wind Energy Lease Agreement**. In the event that Owner and Grantee enter into a Wind Energy Lease Agreement or other similar instrument whereby Owner grants Grantee the exclusive right to install Wind Turbines and/or Wind Facilities on the Property, then this Agreement shall be superseded by such instrument and this Agreement and all payment obligations hereunder shall terminate as of the effective date of such instrument. The foregoing shall not obligate either party to enter into any Wind Energy Lease Agreement or other similar instrument unless it determines in its own best interest to do so. For the avoidance of doubt, this Agreement does not grant Grantee the right to install Wind Turbines and/or Wind Facilities on the Property.

13. **Binding Effect; Governing Law.** All the terms, conditions, covenants and other provisions contained in this Agreement, including benefits and burdens, shall be binding upon and shall run with the land and shall inure to the benefit of and be enforceable by Owner and Grantee, and their respective heirs, successors and assigns. The provisions hereof shall be governed by and construed in accordance with the laws of the State of Illinois, excluding the choice of law provisions thereof.

(a) Notwithstanding any applicable law, ordinance, regulation or permit establishes, or has established, minimum setbacks from the exterior boundaries of the Property for Wind Facilities constructed on Wind Farm Property, to the extent permitted by applicable law, Owner hereby waives any and all such setback requirements with respect to each and every property line of the Property (the "**Setback Waiver**"). For the avoidance of doubt, this Agreement does not grant to Grantee the right to construct Wind Facilities on the Property.

(b) Grantee will abide by all laws, ordinances, regulations, and permit provisions establishing setbacks from occupied residences on the Property as of the date hereof, and in no event shall Grantee construct a Wind Turbine within One Thousand Two Hundred Feet (1,200') of any occupied residence located on the Property (as measured from the edge of the base of the Wind Turbine to the exterior of the closest foundation of any occupied residence on the Property as of the date hereof).

(c) The parties recognize that Grantee is developing Wind Facilities on the Wind Farm Property, and this Setback Waiver is for the benefit of Grantee, the owner(s) of adjacent Wind Farm Property, and their respective successors and assigns, and shall run with the land.

2. **Participation in Wind Farm and Dispute Resolution.** Owner agrees to be deemed a participating landowner with respect to the Wind Farm. In the event Owner has concerns or issues with regard to the construction, installation, maintenance, use or operation of Wind Facilities, Owner agrees to have informal discussions with Grantee, including in-person meetings, for a period of thirty (30) days before pursuing other means to resolve the issues or concerns. Owner agrees to and shall execute such estoppel certificates (certifying as to such matters as Grantee may reasonably request) and/or non-disturbance agreements as Grantee or any Lender may reasonably request from time to time.

3. **Term of Agreement.** Subject to the terms and conditions of this Agreement, the term of this Agreement shall commence on the Effective Date and continue for forty-two (42) years (the "**Term**"), unless earlier terminated by Grantee by written notice to Owner or as otherwise provided herein. If the Construction Commencement Date (defined below) has not occurred prior to the seventh (7^{th}) anniversary of the Effective Date, this Agreement shall automatically terminate. The "**Construction Commencement Date**" shall be the date when excavation work for the installation of a foundation for a Wind Turbine constructed by Grantee on any portion of the Wind Farm Property begins or when excavation work for roads by Grantee on the Wind Farm Property related to its commencement of construction of any Wind Facilities. The Grantee Shall have the option to record a notice of the Construction Commencement Date, with reference to this Agreement, provided that Grantee shall deliver a copy of such notice to Owner within thirty (30) days after recordation of such notice.

4. **Limit on Termination.** Notwithstanding Section 3, except as provided in Section 12 below, or as otherwise provided herein, Grantee shall not terminate or surrender its right, title and interest in this Agreement for any portion of the Property located within one-half (1/2) mile of a Wind Turbine (measured from the center of the Wind Turbine) operated by Grantee as part of the Wind Farm, without the written consent of the Owner, unless there is a title curative issue, permitting issue, or environmental issue affecting the Property, in which case Grantee may terminate this Agreement with respect to that portion of the Property so affected.

5. **Consideration**. As consideration for the rights granted herein, Grantee shall make

payments to Owner during the Term as set forth in the Fee Schedule attached hereto ("**Fee Schedule**"). The Fee Schedule shall be omitted from the recorded Agreement as provided in Section 10 below.

6. **Authority**. Owner represents and warrants that it is the sole owner of the Property and has the unrestricted right and authority to execute this Agreement and to grant to Grantee the rights granted hereunder.

7. **Assignment**. Grantee shall have the right at any time, without need for Owner's consent, to assign or convey all or any portion of this Agreement to an assignee or assignees, on an exclusive or nonexclusive basis, or to mortgage or collaterally assign all or any part of its interest in the Agreement and its rights under the Agreement to any entity (a "**Lender**") without the consent of Owner. Any Lender will have no obligations under this Agreement until such time as it exercises its rights to acquire Grantee's interest subject to the lien of Lender's mortgage by foreclosure or otherwise or assumes the obligations of Grantee under this Agreement. So long as any mortgage with a Lender remains in effect, this Agreement shall not be modified, and Owner shall not accept a surrender of the Property or a termination or release of this Agreement, without the prior consent of all Lenders. Owner, upon providing Grantee any notice of default under this Agreement, shall at the same time provide a copy of such notice to each Lender. Owner shall accept any performance by or at the instigation of any such Lender as if the same had been done by Grantee (but no Lender shall have any obligation to remedy or cause the remedy of any default).

8. **Events of Default**. Each of the following shall constitute an event of default, which shall permit the non-defaulting party, at its discretion, to terminate this Agreement and/or pursue such other remedies as are available to it at law or in equity:

(a) any failure by Grantee to pay any amount owed pursuant to Section 4 above if the failure to pay continues for thirty (30) days after Grantee's receipt of written notice from Owner; and

(b) any other material breach of this Agreement by either party which continues for thirty (30) days after written notice of default from the non-defaulting party or, if the cure will take longer than thirty (30) days, the length of time necessary to effect such cure so long as the defaulting party commences to cure within the thirty (30) day period and continuously and diligently pursues the cure to completion.

9. **Notice**. All notices, requests, demands, waivers, approvals, consents and other communications required or permitted by this Agreement ("**Notices**") shall be given in writing by personal delivery (confirmed by courier delivery service), or facsimile, receipt confirmed, or first class U.S. mail, postage prepaid, return receipt requested, certified, addressed as follows:

Grantee shall not be required to make any rent payment to Owner under this Agreement until such time as Owner has returned to Grantee a completed and executed Internal Revenue Service Form W-9 and a payment instruction form signed by each person or entity holding record title to the Property. Any party may change its address for purposes of this paragraph by giving Notice of such change to the other parties in the manner provided in this paragraph. Any Notice provided for herein shall become effective only upon actual receipt by the party to whom it is given, unless such Notice is only mailed by certified mail, return receipt requested, in which case it shall be deemed to be received five (5) business days after the date it is mailed.

10. **Recording**. Owner and Grantee agree that this Agreement (without the Fee Schedule) shall be recorded in the real property records of the county in which the Property is located.

11. **Confidentiality**. Owner shall maintain in confidence all information pertaining to the financial terms of or payments under this Agreement, whether disclosed by Grantee or discovered by Owner, unless such information is in the public domain by reason of prior publication through no act or omission of Owner or its employees or agents. Owner shall not publish or otherwise disclose such information to others except to accountants, lawyers, or other professionals who receive such information under an obligation of confidentiality; buyers of the Property; lenders that have a security interest in the Property; or family members who agree to keep such information confidential. The provisions of this Section 11 shall survive the termination or expiration of this Agreement.

12. **Wind Energy Lease Agreement**. In the event that Owner and Grantee enter into a Wind Energy Lease Agreement or other similar instrument whereby Owner grants Grantee the exclusive right to install Wind Turbines and/or Wind Facilities on the Property, then this Agreement shall be superseded by such instrument and this Agreement and all payment obligations hereunder shall terminate as of the effective date of such instrument. The foregoing shall not obligate either party to enter into any Wind Energy Lease Agreement or other similar instrument unless it determines in its own best interest to do so. For the avoidance of doubt, this Agreement does not grant Grantee the right to install Wind Turbines and/or Wind Facilities on the Property.

13. **Binding Effect; Governing Law.** All the terms, conditions, covenants and other provisions contained in this Agreement, including benefits and burdens, shall be binding upon and shall run with the land and shall inure to the benefit of and be enforceable by Owner and Grantee, and their respective heirs, successors and assigns. The provisions hereof shall be governed by and construed in accordance with the laws of the State of Illinois, excluding the choice of law provisions thereof.

[*signature pages follow*]

IN WITNESS WHEREOF, AND INTENDING TO BE LEGALLY BOUND HEREBY, Owner and Grantee have caused this Agreement to be duly executed and delivered by their authorized representatives to be effective as of the date first written above.

GRANT OF EASEMENT AND EASEMENT AGREEMENT FOR UNDERGROUND FACILITIES

THIS GRANT OF EASEMENT AND EASEMENT AGREEMENT FOR UNDERGROUND FACILITIES (this "Agreement") is made as of the 8th day of November, 2019 (the "Effective Date"), between David W. Ginder, a single person ("Owner"), and LINCOLN LAND WIND, LLC, a Delaware limited liability company ("Grantee"). Owner is the sole owner of certain property located in Morgan County, Illinois, as more particularly described in Exhibit A attached hereto and made part hereof (the "Property").

1. Grant of Underground Easement. For good and valuable consideration, the receipt and legal sufficiency of which is hereby acknowledged by Owner, Owner grants, conveys and warrants to Grantee and its successors and assigns, an exclusive easement ("Underground Easement") on, along, over, under and across the portion of the Property shown on Exhibit A-1 attached hereto (the "Easement Area") for the right to construct, reconstruct, replace, repair, remove, maintain, operate and use underground wires and cables for the transmission of electrical energy and/or for communication purposes, above-ground junction boxes, and all necessary and proper appliances, fixtures and facilities for use in connection with said wires and cables along, under and across the Easement Area; together with a right-of way in, on, along, over and across the Easement Area. Said wires, cables, appliances, fixtures and facilities are herein collectively called the "Underground Facilities". Owner grants to Grantee the right to utilize the Easement Area for a temporary crane path; provided, however, that such crane path shall be within one hundred fifty feet (150') total, on either or both sides of planned or existing Underground Facilities unless otherwise approved in writing by Owner.

2. Access. Accompanying the Underground Easement Grantee shall have the right of ingress and egress to and from the Easement Area by and for all personnel, labor, goods, services, materials, vehicles, equipment, and other items reasonably required by Grantee in order to effect the purposes described in this Agreement. Grantee may use any existing roads and lanes on the Property, and shall have the right to maintain and improve such roads and lanes. Grantee shall have

the further right to use any fences and gates on the Property; provided Grantee coordinates such use with Owner. Grantee is limited to only utilizing areas North of the Easement Area and the Easement Area itself for ingress and egress. Grantee may not utilize Property South of the Easement Area for ingress and egress without written permission of Owner.

3. Term and Termination. The parties recognize that Grantee is developing Wind Facilities (as defined in Section 10(a) herein) on the Wind Farm Property (as defined in Section 10(a) herein), and the easements granted pursuant to this Agreement are shall be beneficial easements for Grantee's development of the Wind Facilities. Subject to the terms and conditions of this Agreement, the term of this Agreement shall commence on the Effective Date and continue for forty-two (42) years (the "Term"), unless earlier terminated by Grantee by written notice to Owner or as otherwise provided in this Section. If the Construction Commencement Date (defined below) has not occurred prior to the seventh (7^{th}) anniversary of the Effective Date, this Agreement shall automatically terminate. The "Construction Commencement Date" shall be the date when excavation work for the installation of a foundation for a Wind Turbine (as defined in Section 10(a) herein) constructed by Grantee on any portion of the Wind Farm Property begins or when excavation work for roads by Grantee on the Wind Farm Property related to its commencement of construction of any Wind Facilities. The Grantee shall have the option to record a notice of the Construction Commencement Date, with reference to this Agreement, provided that Grantee shall deliver a copy of such notice to Owner within thirty (30) days after recordation of such notice.

4. Assignment. Grantee may assign this Agreement or its rights with respect to the Underground Easement, in whole or in part, without the need for Owner's consent. This Agreement shall run with the land. This Agreement shall inure to the benefit of, and be binding upon, Owner and Grantee and their respective transferees, legal representatives, heirs, successors and assigns and all persons claiming under them.

5. Payment. As consideration for the Underground Easement, Grantee shall make the payments to Owner as set forth in the Fee Schedule attached hereto as Exhibit B (the "Fee Schedule"). The Fee Schedule shall be omitted from the recorded version of the Agreement as provided in Section 11 below.

6. No Interference. Owner shall not conduct any activity, nor grant any rights to any third party that would interfere with Grantee's use of the Easement Area or the rights granted under this Agreement and Owner shall not disturb, uncover or damage any Underground Facilities. Owner reserves the right to use the Easement Area for agricultural purposes. Nothing contained in this easement shall restrict Owner's ability to construct improvements on the Property outside of the Easement Area.

7. Drain Tile Repair. Grantee shall make commercially reasonable repairs (including replacement of damaged tile as necessary) of any tile damage caused by Grantee's construction or operation activities within the Easement Area. Grantee shall also pay crop damage for any crops damaged by flood due to broken tile which would not have occurred but for Grantee's activities within the Easement Area and indemnify Owner against any third-party claims for any such flood damage. In the event that any such tile damage is not repaired by Grantee, Owner shall have up to 36 months from the date of alleged tile damage to identify such damaged area and substantiate that such tile damage was caused by Grantee's activities. Underground electrical wires and cables shall

be installed with a trencher to a depth not less than 42 inches below the natural surface of the ground and below any existing drain tile. All farm drainage tile which intersects the Grantee's Underground Facilities shall be identified and repaired and/or replaced if damaged by Grantee, by a local contractor qualified in farm drainage. Grantee may use any existing roads and lanes on the

Property, and shall have the right to maintain and improve such roads and lanes. Grantee shall have the further right to use any fences and gates on the Property; provided Grantee coordinates such use with Owner.

3. Term and Termination. The parties recognize that Grantee is developing Wind Facilities (as defined in Section 10(a) herein) on the Wind Farm Property (as defined in Section 10(a) herein), and the easements granted pursuant to this Agreement are shall be beneficial easements for Grantee's development of the Wind Facilities. WIND FARM PARTICIPATION AND SUPPORT AGREEMENT

This Wind Farm Participation and Support Agreement (this "**Agreement**"), is dated and effective as of Nov 27, 2019 ("**Effective Date**"), by and between **Andrew B. Holloway and Cindy G. Holloway, husband and wife** (collectively, "**Owner**") and **Lincoln Land Wind, LLC**, a Delaware limited liability company ("**Grantee**").

RECITALS:

A. Owner is the owner of that certain tract of real property located in Morgan County, Illinois, more particularly described on Exhibit A attached hereto and made a part hereof (the "**Property**");

B. Grantee has acquired, or will acquire, certain easements and other related rights covering real property located adjacent to and/or in the vicinity of the Property (collectively, the "**Wind Farm Property**") for purposes of the construction, installation, maintenance, use and operation of wind energy conversion turbines ("**Wind Turbines**"), electrical distribution and transmission facilities and related roads and facilities (collectively, the "**Wind Facilities**");

C. Owner desires to participate in the wind farm project being developed by Grantee on the Wind Farm Property in Morgan County, Illinois (the "**Wind Farm**") in accordance with the terms and conditions contained herein; and

D. The Wind Farm may be constructed and put into operation in one or more phases (each a "**Phase**") that are distinguishable from the remainder of the Wind Farm, as determined by Grantee in its reasonable discretion.

AGREEMENT:

NOW, THEREFORE, in consideration of the premises and other good and valuable consideration, the receipt and adequacy of which are hereby acknowledged, the parties hereto agree as follows:

1. **Setbacks.**

(a) Notwithstanding any applicable law, ordinance, regulation or permit establishes, or has established, minimum setbacks from the exterior boundaries of the Property for Wind Facilities constructed on Wind Farm Property, to the extent permitted by applicable law, Owner hereby waives any and all such setback requirements with respect to each and every property line of the Property (the "**Setback Waiver**"). For the avoidance of doubt, this Agreement does not grant to Grantee the right to construct Wind Facilities on the Property.

(b) Grantee will abide by all laws, ordinances, regulations, and permit provisions establishing setbacks from occupied residences on the Property as of the date hereof, and in no event shall Grantee construct a Wind Turbine within One Thousand Three Hundred Twenty Feet (1,320') of any occupied residence located on the Property (as measured from the edge of the base of the Wind Turbine to the exterior of the closest foundation of any occupied residence on the Property as of the date hereof).

(c) The parties recognize that Grantee is developing Wind Facilities on the Wind Farm Property, and this Setback Waiver is for the benefit of Grantee, the owner(s) of adjacent Wind Farm Property, and their respective successors and assigns, and shall run with the land.

2. **Participation in Wind Farm and Dispute Resolution.** Owner agrees to be deemed a participating landowner with respect to the Wind Farm. In the event Owner has concerns or issues with regard to the construction, installation, maintenance, use or operation of Wind Facilities, Owner agrees to have informal discussions with Grantee, including in-person meetings, for a period of thirty (30) days before pursuing other means to resolve the issues or concerns. Owner agrees to and shall execute such estoppel certificates (certifying as to such matters as Grantee may reasonably request) and/or non-disturbance agreements as Grantee or any Lender may reasonably request from time to time.

3. **Term of Agreement.** Subject to the terms and conditions of this Agreement, the term of this Agreement shall commence on the Effective Date and continue for forty-two (42) years (the "**Term**"), unless earlier terminated by Grantee by written notice to Owner or as otherwise provided herein. If the Construction Commencement Date (defined below) has not occurred prior to the seventh (7^{th}) anniversary of the Effective Date, this Agreement shall automatically terminate. The "**Construction Commencement Date**" shall be the date when excavation work for the installation of a foundation for a Wind Turbine constructed by Grantee on any portion of the Wind Farm Property begins or when excavation work for roads by Grantee on the Wind Farm Property related to its commencement of construction of any Wind Facilities. The Grantee Shall have the option to record a notice of the Construction Commencement Date, with reference to this Agreement, provided that Grantee shall deliver a copy of such notice to Owner within thirty (30) days after recordation of such notice.

4. **Limit on Termination.** Notwithstanding Section 3, except as provided in Section 12 below, or as otherwise provided herein, Grantee shall not terminate or surrender its right, title and interest in this Agreement for any portion of the Property located within one-half (1/2) mile of a Wind Turbine (measured from the center of the Wind Turbine) operated by Grantee as part of the Wind Farm, without the written consent of the Owner, unless there is a title curative issue, permitting issue, or environmental issue affecting the Property, in which case Grantee may terminate this Agreement with respect to that portion of the Property so affected.

5. **Consideration**. As consideration for the rights granted herein, Grantee shall make

payments to Owner during the Term as set forth in the Fee Schedule attached hereto ("**Fee Schedule**"). The Fee Schedule shall be omitted from the recorded Agreement as provided in Section 10 below.

6. **Authority**. Owner represents and warrants that it is the sole owner of the Property and has the unrestricted right and authority to execute this Agreement and to grant to Grantee the rights granted hereunder.

7. **Assignment**. Grantee shall have the right at any time, without need for Owner's consent, to assign or convey all or any portion of this Agreement to an assignee or assignees, on an exclusive or nonexclusive basis, or to mortgage or collaterally assign all or any part of its interest in the Agreement and its rights under the Agreement to any entity (a "**Lender**") without the consent of Owner. Any Lender will have no obligations under this Agreement until such time as it exercises its rights to acquire Grantee's interest subject to the lien of Lender's mortgage by foreclosure or otherwise or assumes the obligations of Grantee under this Agreement. So long as any mortgage with a Lender remains in effect, this Agreement shall not be modified, and Owner shall not accept a surrender of the Property or a termination or release of this Agreement, without the prior consent of all Lenders. Owner, upon providing Grantee any notice of default under this Agreement, shall at the same time provide a copy of such notice to each Lender. Owner shall accept any performance by or at the instigation of any such Lender as if the same had been done by Grantee (but no Lender shall have any obligation to remedy or cause the remedy of any default).

8. **Events of Default**. Each of the following shall constitute an event of default, which shall permit the non-defaulting party, at its discretion, to terminate this Agreement and/or pursue such other remedies as are available to it at law or in equity:

(a) any failure by Grantee to pay any amount owed pursuant to Section 4 above if the failure to pay continues for thirty (30) days after Grantee's receipt of written notice from Owner; and

(b) any other material breach of this Agreement by either party which continues for thirty (30) days after written notice of default from the non-defaulting party or, if the cure will take longer than thirty (30) days, the length of time necessary to effect such cure so long as the defaulting party commences to cure within the thirty (30) day period and continuously and diligently pursues the cure to completion.

9. **Notice**. All notices, requests, demands, waivers, approvals, consents and other communications required or permitted by this Agreement ("**Notices**") shall be given in writing by personal delivery (confirmed by courier delivery service), or facsimile, receipt confirmed, or first class U.S. mail, postage prepaid, return receipt requested, certified, addressed as follows:

Grantee shall not be required to make any rent payment to Owner under this Agreement until such time as Owner has returned to Grantee a completed and executed Internal Revenue Service Form W-9 and a payment instruction form signed by each person or entity holding record title to the Property. Any party may change its address for purposes of this paragraph by giving Notice of such change to the other parties in the manner provided in this paragraph. Any Notice provided for herein shall become effective only upon actual receipt by the party to whom it is given, unless such Notice is only mailed by certified mail, return receipt requested, in which case it shall be deemed to be received five (5) business days after the date it is mailed.

10. **Recording**. Owner and Grantee agree that this Agreement (without the Fee Schedule) shall be recorded in the real property records of the county in which the Property is located.

11. **Confidentiality**. Owner shall maintain in confidence all information pertaining to the financial terms of or payments under this Agreement, whether disclosed by Grantee or discovered by Owner, unless such information is in the public domain by reason of prior publication through no act or omission of Owner or its employees or agents. Owner shall not publish or otherwise disclose such information to others except to accountants, lawyers, or other professionals who receive such information under an obligation of confidentiality; buyers of the Property; lenders that have a security interest in the Property; or family members who agree to keep such information confidential. The provisions of this Section 11 shall survive the termination or expiration of this Agreement.

12. **Wind Energy Lease Agreement**. In the event that Owner and Grantee enter into a Wind Energy Lease Agreement or other similar instrument whereby Owner grants Grantee the exclusive right to install Wind Turbines and/or Wind Facilities on the Property, then this Agreement shall be superseded by such instrument and this Agreement and all payment obligations hereunder shall terminate as of the effective date of such instrument. The foregoing shall not obligate either party to enter into any Wind Energy Lease Agreement or other similar instrument unless it determines in its own best interest to do so. For the avoidance of doubt, this Agreement does not grant Grantee the right to install Wind Turbines and/or Wind Facilities on the Property.

13. **Binding Effect; Governing Law**. All the terms, conditions, covenants and other provisions contained in this Agreement, including benefits and burdens, shall be binding upon and shall run with the land and shall inure to the benefit of and be enforceable by Owner and Grantee, and their respective heirs, successors and assigns. The provisions hereof shall be governed by and construed in accordance with the laws of the State of Illinois, excluding the choice of law provisions thereof.

WIND FARM PARTICIPATION AND SUPPORT AGREEMENT

This Wind Farm Participation and Support Agreement (this "**Agreement**"), is dated and effective as of _____, 20___ ("**Effective Date**"), by and between **Scott E. Whitlock and Lisa J. Whitlock, husband and wife** (collectively, "**Owner**") and **Lincoln Land Wind, LLC**, a Delaware limited liability company ("**Grantee**").

RECITALS:

A. Owner is the owner of that certain tract of real property located in Morgan County, Illinois, more particularly described on Exhibit A attached hereto and made a part hereof (the "**Property**");

B. Grantee has acquired, or will acquire, certain easements and other related rights covering real property located adjacent to and/or in the vicinity of the Property (collectively, the "**Wind Farm Property**") for purposes of the construction, installation, maintenance, use and operation of wind energy conversion turbines ("**Wind Turbines**"), electrical distribution and transmission facilities and related roads and facilities (collectively, the "**Wind Facilities**");

C. Owner desires to participate in the wind farm project being developed by Grantee on the Wind Farm Property in Morgan County, Illinois (the "**Wind Farm**") in accordance with the terms and conditions contained herein; and

D. The Wind Farm may be constructed and put into operation in one or more phases (each a "**Phase**") that are distinguishable from the remainder of the Wind Farm, as determined by Grantee in its reasonable discretion.

AGREEMENT:

NOW, THEREFORE, in consideration of the premises and other good and valuable consideration, the receipt and adequacy of which are hereby acknowledged, the parties hereto agree as follows:

1. **Setbacks.**

(a) Notwithstanding any applicable law, ordinance, regulation or permit establishes, or has established, minimum setbacks from the exterior boundaries of the Property for Wind Facilities constructed on Wind Farm Property, to the extent permitted by applicable law, Owner hereby waives any and all such setback requirements with respect to each and every property line of the Property (the "**Setback Waiver**"). For the avoidance of doubt, this Agreement does not grant to Grantee the right to construct Wind Facilities on the Property.

(b) Grantee will abide by all laws, ordinances, regulations, and permit provisions establishing setbacks from occupied residences on the Property as of the date hereof, and in no event shall Grantee construct a Wind Turbine within One Thousand Three Hundred Twenty Feet (1,320') of any occupied residence located on the Property (as measured from the edge of the base of the Wind Turbine to the exterior of the closest foundation of any occupied residence on the Property as of the date hereof).

(c) The parties recognize that Grantee is developing Wind Facilities on the Wind Farm Property, and this Setback Waiver is for the benefit of Grantee, the owner(s) of adjacent Wind Farm Property, and their respective successors and assigns, and shall run with the land.

2. **Participation in Wind Farm and Dispute Resolution.** Owner agrees to be deemed a participating landowner with respect to the Wind Farm. In the event Owner has concerns or issues with regard to the construction, installation, maintenance, use or operation of Wind Facilities, Owner agrees to have informal discussions with Grantee, including in-person meetings, for a period of thirty (30) days before pursuing other means to resolve the issues or concerns. Owner agrees to and shall execute such estoppel certificates (certifying as to such matters as Grantee may reasonably request) and/or non-disturbance agreements as Grantee or any Lender may reasonably request from time to time.

3. **Term of Agreement.** Subject to the terms and conditions of this Agreement, the term of this Agreement shall commence on the Effective Date and continue for forty-two (42) years (the "**Term**"), unless earlier terminated by Grantee by written notice to Owner or as otherwise provided herein. If the Construction Commencement Date (defined below) has not occurred prior to the seventh (7^{th}) anniversary of the Effective Date, this Agreement shall automatically terminate. The "**Construction Commencement Date**" shall be the date when excavation work for the installation of a foundation for a Wind Turbine constructed by Grantee on any portion of the Wind Farm Property begins or when excavation work for roads by Grantee on the Wind Farm Property related to its commencement of construction of any Wind Facilities. The Grantee Shall have the option to record a notice of the Construction Commencement Date, with reference to this Agreement, provided that Grantee shall deliver a copy of such notice to Owner within thirty (30) days after recordation of such notice.

4. **Limit on Termination.** Notwithstanding Section 3, except as provided in Section 12 below, or as otherwise provided herein, Grantee shall not terminate or surrender its right, title and interest in this Agreement for any portion of the Property located within one-half (1/2) mile of a Wind Turbine (measured from the center of the Wind Turbine) operated by Grantee as part of the Wind Farm, without the written consent of the Owner, unless there is a title curative issue, permitting issue, or environmental issue affecting the Property, in which case Grantee may terminate this Agreement with respect to that portion of the Property so affected.

5. **Consideration**. As consideration for the rights granted herein, Grantee shall make

payments to Owner during the Term as set forth in the Fee Schedule attached hereto ("**Fee Schedule**"). The Fee Schedule shall be omitted from the recorded Agreement as provided in Section 10 below.

6. **Authority**. Owner represents and warrants that it is the sole owner of the Property and has the unrestricted right and authority to execute this Agreement and to grant to Grantee the rights granted hereunder.

7. **Assignment**. Grantee shall have the right at any time, without need for Owner's consent, to assign or convey all or any portion of this Agreement to an assignee or assignees, on an exclusive or nonexclusive basis, or to mortgage or collaterally assign all or any part of its interest in the Agreement and its rights under the Agreement to any entity (a "**Lender**") without the consent of Owner. Any Lender will have no obligations under this Agreement until such time as it exercises its rights to acquire Grantee's interest subject to the lien of Lender's mortgage by foreclosure or otherwise or assumes the obligations of Grantee under this Agreement. So long as any mortgage with a Lender remains in effect, this Agreement shall not be modified, and Owner shall not accept a surrender of the Property or a termination or release of this Agreement, without the prior consent of all Lenders. Owner, upon providing Grantee any notice of default under this Agreement, shall at the same time provide a copy of such notice to each Lender. Owner shall accept any performance by or at the instigation of any such Lender as if the same had been done by Grantee (but no Lender shall have any obligation to remedy or cause the remedy of any default).

8. **Events of Default**. Each of the following shall constitute an event of default, which shall permit the non-defaulting party, at its discretion, to terminate this Agreement and/or pursue such other remedies as are available to it at law or in equity:

(a) any failure by Grantee to pay any amount owed pursuant to Section 4 above if the failure to pay continues for thirty (30) days after Grantee's receipt of written notice from Owner; and

(b) any other material breach of this Agreement by either party which continues for thirty (30) days after written notice of default from the non-defaulting party or, if the cure will take longer than thirty (30) days, the length of time necessary to effect such cure so long as the defaulting party commences to cure within the thirty (30) day period and continuously and diligently pursues the cure to completion.

9. **Notice**. All notices, requests, demands, waivers, approvals, consents and other communications required or permitted by this Agreement ("**Notices**") shall be given in writing by personal delivery (confirmed by courier delivery service), or facsimile, receipt confirmed, or first class U.S. mail, postage prepaid, return receipt requested, certified, addressed as follows:

Grantee shall not be required to make any rent payment to Owner under this Agreement until such time as Owner has returned to Grantee a completed and executed Internal Revenue Service Form W-9 and a payment instruction form signed by each person or entity holding record title to the Property. Any party may change its address for purposes of this paragraph by giving Notice of such change to the other parties in the manner provided in this paragraph. Any Notice provided for herein shall become effective only upon actual receipt by the party to whom it is given, unless such Notice is only mailed by certified mail, return receipt requested, in which case it shall be deemed to be received five (5) business days after the date it is mailed.

10. **Recording**. Owner and Grantee agree that this Agreement (without the Fee Schedule) shall be recorded in the real property records of the county in which the Property is located.

11. **Confidentiality**. Owner shall maintain in confidence all information pertaining to the financial terms of or payments under this Agreement, whether disclosed by Grantee or discovered by Owner, unless such information is in the public domain by reason of prior publication through no act or omission of Owner or its employees or agents. Owner shall not publish or otherwise disclose such information to others except to accountants, lawyers, or other professionals who receive such information under an obligation of confidentiality; buyers of the Property; lenders that have a security interest in the Property; or family members who agree to keep such information confidential. The provisions of this Section 11 shall survive the termination or expiration of this Agreement.

12. **Wind Energy Lease Agreement**. In the event that Owner and Grantee enter into a Wind Energy Lease Agreement or other similar instrument whereby Owner grants Grantee the exclusive right to install Wind Turbines and/or Wind Facilities on the Property, then this Agreement shall be superseded by such instrument and this Agreement and all payment obligations hereunder shall terminate as of the effective date of such instrument. The foregoing shall not obligate either party to enter into any Wind Energy Lease Agreement or other similar instrument unless it determines in its own best interest to do so. For the avoidance of doubt, this Agreement does not grant Grantee the right to install Wind Turbines and/or Wind Facilities on the Property.

13. **Binding Effect; Governing Law.** All the terms, conditions, covenants and other provisions contained in this Agreement, including benefits and burdens, shall be binding upon and shall run with the land and shall inure to the benefit of and be enforceable by Owner and Grantee, and their respective heirs, successors and assigns. The provisions hereof shall be governed by and construed in accordance with the laws of the State of Illinois, excluding the choice of law provisions thereof.

Re: Landowner Consent to Submit Permit Application for Lincoln Land Wind

Dear Mr. Douglas:

We are the owners of Morgan County Tax parcel 15-17-200-006 (the "Parcel"). We are currently negotiating in good faith with Lincoln Land Wind, LLC, a Delaware limited liability company ("Lincoln Land") the terms of an Underground Collection Easement Agreement affecting the Parcel.

As the owners of the Parcel, please be advised that we have authorized Lincoln Land to include the Parcel as a location for underground electrical lines in a Special Use Permit application that will be submitted for the Lincoln Land Wind Project to the Morgan County Zoning Administrator, and Morgan County Board. If the parties reach agreement on the terms and the easement is finalized and signed, a fully executed copy of the easement will be filed with the Morgan County Recorder's Office prior to the commencement of any construction activities on the Parcel for the Lincoln Land Wind Project.

If you have any questions please contact our attorney Andrew G. White at Bellatti, Barton, Cochran & White LLC at 217-793-9300.

Sincerely,

John Daniel Eilering
